According to our LPI (LP Information) latest study, the global Angio Suites market size was valued at US\$ 2132.6 million in 2023. With growing demand in downstream market, the Angio Suites is forecast to a readjusted size of US\$ 3254.4 million by 2030 with a CAGR of 6.2% during review period.

The research report highlights the growth potential of the global Angio Suites market. Angio Suites are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Angio Suites. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Angio Suites market.

Angio suites are multi-purpose examination rooms, where diverse angio/interventional procedures are performed.

While the sudden onset of the COVID-19 pandemic has negatively impacted most of the business segments, the angio suites market will witness significant growth in 2020 and 2021 owing to the rise in cases of cardiac and other chronic diseases amid the pandemic. Sudden and uncontrolled rise in covid-19 cases has led to an increase in the number of patients suffering from cardiac diseases, thereby increasing the demand for advanced angio suites. Factors such as increasing burden of geriatric population along with increasing demand for cardiovascular diseases, minimally invasive procedures, high development of artificial intelligence (AI) and diagnostic imaging analysis techniques, and rapid advancements in diagnostic imaging technologies are the major factors expected to strengthen the angio suites market increase. Furthermore,

increasing awareness and scope of clinical applications for early diagnosis among the target population may also contribute to the growth of the market studied. Furthermore, rising investments, funding, and grants from public-private organizations are expected to contribute to the growth of the market studied over the forecast period. Therefore, based on the factors mentioned above, the global angio suites market will witness growth over the forecast period.
