Abstracts

The global Anime Costumes market size is predicted to grow from US\$ 161 million in 2025 to US\$ 263 million in 2031; it is expected to grow at a CAGR of 8.5% from 2025 to 2031.

Anime Costumes refers to the costumes designed for characters in animation works. These costumes are usually designed based on the settings of animation works and the characteristics of the characters, and have unique styles and characteristics.

As the animation market continues to expand and audiences' demand for personalization increases, Anime Costumes will become more diversified and personalized. Designers will design more unique and creative costumes based on the characteristics of different animation works and characters to meet the aesthetic needs of the audience.
