Abstracts

The global Anti-collision Mouthguard market size is predicted to grow from US$ 150 million in 2025 to US$ 277 million in 2032; it is expected to grow at a CAGR of 8.5% from 2026 to 2032.

In 2025, global Anti-collision Mouthguard production is approximately 9,641 k units, with an average global selling price of around US$15.93 per unit. Gross margin is about 34%. The average cost is around US$10.51 per unit. Total production capacity is approximately 12,051 k units, and total market revenue is approximately US$153.62 million. An Anti-collision Mouthguard is a protective oral device worn over the teeth, typically made of EVA, silicone, or thermoplastic materials. It is designed to absorb and distribute impact forces during sports or high-impact activities, protecting teeth, gums, jaws, and oral soft tissues. It is widely used in boxing, rugby, basketball, martial arts, and extreme sports.

From an industry perspective, the anti-collision mouthguard market is growing steadily, driven by increasing global sports participation and rising awareness of injury prevention. The expansion of both professional sports and recreational fitness activities is accelerating the penetration of oral protection products from professional athletics into the mass consumer market. At the same time, customized mouthguards based on 3D scanning and dental modeling are improving comfort and protection performance, becoming an important trend in the premium segment.

Looking forward, the market is expected to evolve toward personalization, material innovation, and smart functionality. Advanced polymer materials and multi-layer shock-absorbing structures are enhancing impact protection performance. Meanwhile, digital dental scanning and 3D printing are enabling wider adoption of customized solutions. In

addition, smart mouthguards with integrated impact sensing and performance tracking are emerging at an early stage and are expected to be first adopted in professional sports.

LP Information, Inc. (LPI) ' newest research report, the “Anti-collision Mouthguard Industry Forecast” looks at past sales and reviews total world Anti-collision Mouthguard sales in 2025, providing a comprehensive analysis by region and market sector of projected Anti-collision Mouthguard sales for 2026 through 2032. With Anti-collision Mouthguard sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US$ millions of the world Anti-collision Mouthguard industry.

This Insight Report provides a comprehensive analysis of the global Anti-collision Mouthguard landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on Anti-collision Mouthguard portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms’ unique position in an accelerating global Anti-collision Mouthguard market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Anti-collision Mouthguard and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Anti-collision Mouthguard.

This report presents a comprehensive overview, market shares, and growth opportunities of Anti-collision Mouthguard market by product type, application, key manufacturers and key regions and countries.
