The global Aromatherapy Diffuser Sticks market size is predicted to grow from US$ million in 2025 to US$ million in 2032; it is expected to grow at a CAGR of %from 2026 to 2032.

Aromatherapy diffuser sticks are products used to diffuse aromas, usually consisting of a slender stick and a small container containing aromatherapy essential oils. The stick can be made of wood, plastic or other materials, while the container is used to store the aromatherapy essential oils. When the essential oil rises along the stick and evaporates through capillary action, the aroma is released into the air, which plays a role in scenting and refreshing the air. Aromatherapy diffusers do not require power or fire sources, are easy to use, safe and environmentally friendly.
