Abstracts

The global Attention Supplements market size is predicted to grow from US\$ 143 million in 2025 to US\$ 253 million in 2032; it is expected to grow at a CAGR of 8.6% from 2026 to 2032.

Attention supplements are those thought to improve focus, alertness, or cognitive function. These supplements may include various ingredients such as vitamins, minerals, antioxidants, etc.

For some complex attention issues, a single supplement may not fully resolve the symptoms. Therefore, more combination treatment strategies may emerge in the future, combining different supplements to achieve better therapeutic effects.
