Audio translation service providers accurately translate audio files. The most common services provided are audio-to-text, where an audio file from one language is translated to text in a different language, and “voice-over” or audio-to-audio, where audio from one language is translated and recorded into audio in a different language. Providers translate between numerous languages and typically can guarantee a level of confidentiality when necessary.

The global Audio Translation Service market size is projected to grow from US\$ 920.5 million in 2023 to US\$ 1544.9 million in 2030; it is expected to grow at a CAGR of 7.7% from 2024 to 2030.
