## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Lunch meats—also known as cold cuts, luncheon meats, cooked meats, sliced meats, cold meats and deli meats—are precooked or cured meats that are sliced and served cold or hot. They are typically served in sandwiches or on party trays. They can be purchased pre-sliced, usually in vacuum packs, or they can be sliced to order.

Bacon is a type of salt-cured pork. Bacon is prepared from several different cuts of meat, typically from the pork belly or from back cuts, which have less fat than the belly. It is eaten on its own, as a side dish (particularly in breakfasts), or used as a minor ingredient to flavour dishes (e.g., the club sandwich). Bacon is also used for barding and larding roasts, especially game, including venison and pheasant.
