Abstracts

The global Battery-Powered Electromagnetic Flowmeter market size is predicted to grow from US\$ 185 million in 2025 to US\$ 235 million in 2032; it is expected to grow at a CAGR of 3.5% from 2026 to 2032.

A Battery-Powered Electromagnetic Flowmeter is an intelligent device for measuring the flow rate of conductive liquids, such as water, slurry, or sewage, in closed pipelines where an external power source is unavailable. It uses internal, long-lasting lithium batteries that can power the device for several years, making it suitable for remote locations like water supply networks, environmental monitoring, and remote agricultural applications. These flowmeters often include wireless communication modules for remote data transmission and can feature data logging for long-term analysis.

Key Findings

2025 shipment volume reached approximately 403 K units

Average selling price reached US\$470 per unit in 2025

Asia Pacific was assessed as the largest shipment market

All-in-one meters remained the dominant product configuration globally

Municipal water networks represented the largest downstream application

Market Trends

The market is evolving from standalone battery-powered totalizers into connected smart-water measurement nodes. Leading products increasingly integrate flow and pressure measurement, interval data logging, equipment diagnostics and NB-IoT, LTE or other wireless communication within one low-power instrument. Battery life, once evaluated primarily as a replacement interval, is becoming a system-design variable linked to sampling frequency, transmission intervals, ambient temperature and network signal quality. Suppliers are consequently improving excitation efficiency, sleep-mode management, edge processing and configurable reporting strategies. Another important trend is the replacement of mechanical bulk water meters in district metered areas and large-customer billing applications, where electromagnetic designs offer no moving parts, negligible flow obstruction, improved low-flow sensitivity and reduced maintenance. IP68 protection, buried installation capability, remote parameter configuration and integrated pressure measurement are becoming more influential purchasing criteria. At the same time, utilities are shifting procurement assessments from initial meter price toward total lifecycle expenditure, including installation, wiring, field visits, battery replacement, communications and data-platform compatibility.

Market Dynamics

Drivers

The principal demand driver is the need for accurate flow information at remote or difficult-to-wire measurement points. Water utilities are expanding district metering, leakage management, large-user billing and network pressure monitoring as aging infrastructure and non-revenue water weaken operating efficiency. Battery-powered electromagnetic flowmeters can be installed in underground chambers, abstraction wells, irrigation pipelines and isolated distribution stations without constructing a permanent electrical connection. The expansion of advanced metering infrastructure also increases demand for instruments capable of providing frequent and reliable consumption data rather than only local totalized readings. Additional growth comes from irrigation modernization, water-resource accounting, wastewater monitoring and industrial users seeking lower-maintenance alternatives to mechanical meters. The absence of moving measuring components, relatively low pressure loss and suitability for bidirectional flow further support adoption in critical water networks.

Restraints

Market expansion is constrained by higher initial acquisition costs than conventional mechanical water meters and basic externally powered electromagnetic instruments.

Performance also depends on appropriate installation conditions, including sufficient liquid conductivity, a continuously full pipe, effective grounding and control of entrained air, sediment and unstable flow profiles. The low-power excitation required for extended battery life can make measurement design more demanding under very low flow, electrically noisy or poor-conductivity conditions. Utilities may additionally face restrictions related to approved meter lists, custody-transfer certification, local communication standards and lengthy public procurement cycles. For connected products, weak cellular coverage or underground signal attenuation can reduce the value of integrated communications. Battery replacement is infrequent but remains an important lifecycle consideration because actual service life can fall below nominal ratings when sampling and transmission frequencies are increased.

Opportunities

The strongest opportunities lie in the conversion of conventional water networks into digitally managed systems. Battery-powered flowmeters can become multi-parameter field nodes when combined with pressure sensors, data loggers and cloud communication, enabling utilities to identify abnormal consumption, monitor minimum night flow and improve hydraulic zoning. Large opportunities also exist in emerging and water-stressed markets where distribution networks cover extensive areas but grid access at individual measurement points is limited. Retrofit projects provide another attractive market because battery operation reduces trenching, cabling and electrical installation costs. Suppliers can expand beyond hardware sales through device management, remote diagnostics, data hosting, battery-condition monitoring and network-analysis services. Specialized opportunities are emerging in agricultural irrigation, groundwater abstraction, industrial utility water, temporary measurement campaigns and large-diameter pipelines where insertion-type instruments can reduce installation expense.

Challenges

The principal technical challenge is balancing measurement performance, communications frequency and battery endurance. Higher excitation and sampling rates can improve response to rapid flow changes, while frequent wireless reporting supports near-real-time leakage analysis, but both increase power consumption. Manufacturers must also maintain long-term electrode stability, liner integrity, enclosure sealing and electronic reliability in flooded chambers, high humidity and wide ambient-temperature conditions. Meter accuracy can be affected by air bubbles, partially filled pipes, deposits, magnetic particles and inappropriate upstream hydraulic conditions.

Commercially, suppliers must support multiple flange standards, communication protocols, local metrology requirements and water-contact approvals while keeping production costs competitive. Connected instruments introduce additional cybersecurity, firmware-maintenance and data-interoperability requirements. Product failure is particularly costly because many meters are installed underground or in remote locations where field access and maintenance are difficult.

Industry Chain Analysis

The upstream industry chain comprises stainless steel or coated carbon-steel meter bodies, insulating liners, corrosion-resistant electrodes, excitation coils, magnetic components, seals, low-power microcontrollers, analog front ends, displays, lithium battery packs, pressure sensors and wireless communication modules. Midstream manufacturers undertake hydraulic and electromagnetic design, sensor-body fabrication, converter development, low-power algorithm design, enclosure sealing, assembly, calibration and compliance testing. Flow calibration capability is a major entry barrier because accuracy must be maintained across different diameters, flow ranges and installation conditions. Product value increasingly comes from the combination of sensor performance, battery management, diagnostics, certified accuracy, communications and software compatibility rather than from the measuring tube alone. Downstream customers include municipal utilities, irrigation authorities, industrial plants, water conservancy operators, wastewater facilities, engineering contractors and metering service providers. Distributors and system integrators remain important sales channels, but they are not treated as manufacturers unless they provide proprietary meter products or OEM-controlled designs.

Downstream Market Opportunities

Municipal water supply, district metering and leakage control form the largest downstream opportunity because battery-powered electromagnetic flowmeters directly address dispersed installation points, underground chambers and remote network zones. Irrigation and water-resource management represent the second major opportunity, particularly where operators require accurate abstraction and allocation measurement without available grid power. Industrial water and process-utility applications are smaller but offer higher specification value when customers require corrosion-resistant materials, pressure integration, data logging or measurement of conductive liquids beyond potable water. Wastewater treatment and drainage applications provide incremental demand, although entrained air, deposits and partially filled pipes require careful product selection. Future growth will increasingly come from

projects combining flowmeters with communication gateways, hydraulic models and utility-management platforms rather than from isolated meter replacement.

Regional Insights

Asia Pacific is assessed as the largest market by shipment volume, supported by extensive municipal water infrastructure, irrigation systems, rapid smart-water investment and a broad Chinese manufacturing base. China combines demand from water utilities and industrial users with competitive domestic suppliers such as Shenzhen ANSO IOT, Supmea Automation, Zhejiang Diyuan Instrument, Nanjing Wotian, RunZhong Instrument and Oasis Instrument. Japan represents a more certification-oriented market, with specialized electromagnetic water meters supplied by Tokyo Keiso and Azbil Kimmon.

Europe has a high-value market position because of strong water-technology suppliers, established metrology requirements and increasing attention to leakage management and digital water operations. ABB, Siemens, Endress+Hauser and KROHNE maintain particularly strong product portfolios in this region. North American demand is supported by advanced metering infrastructure, utility modernization and commercial or industrial water billing, with Badger Meter and Honeywell among the relevant suppliers. The Middle East, Latin America and Africa offer long-term potential in remote water distribution, abstraction and irrigation, although project financing, certification, communications coverage and public procurement can delay conversion into shipments.

Report Scope

LP Information, Inc. (LPI) ' newest research report, the "Battery-Powered Electromagnetic Flowmeter Industry Forecast" looks at past sales and reviews total world Battery-Powered Electromagnetic Flowmeter sales in 2025, providing a comprehensive analysis by region and market sector of projected Battery-Powered Electromagnetic Flowmeter sales for 2026 through 2032. With Battery-Powered Electromagnetic Flowmeter sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the world Battery-Powered Electromagnetic Flowmeter industry.

This Insight Report provides a comprehensive analysis of the global Battery-Powered Electromagnetic Flowmeter landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and

M&A activity. This report also analyzes the strategies of leading global companies with a focus on Battery-Powered Electromagnetic Flowmeter portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global Battery-Powered Electromagnetic Flowmeter market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Battery-Powered Electromagnetic Flowmeter and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Battery-Powered Electromagnetic Flowmeter.

This report presents a comprehensive overview, market shares, and growth opportunities of Battery-Powered Electromagnetic Flowmeter market by product type, application, key manufacturers and key regions and countries.

Segmentation by Type:

All-in-One

Split Type

Segmentation by Connection Method:

Flange Type

Plug-in Type

Clamp Type

Segmentation by Nominal Diameter:

Small Diameter: DN 10–DN 50

Medium Diameter: DN 50–DN 200

Large Diameter: >DN 200

Segmentation by Application:

Urban Water Supply and Heating

Wastewater Treatment

Water Conservancy Projects

Agricultural Irrigation

Water Administration and Water Resources Management

This report also splits the market by region:

Americas

United States

Canada

Mexico

Brazil

APAC

China

Japan

Korea

Southeast Asia

India

Australia

Europe

Germany

France

UK

Italy

Russia

Middle East & Africa

Egypt

South Africa

Israel

Turkey

GCC Countries

The below companies that are profiled have been selected based on inputs gathered from primary experts and analysing the company's coverage, product portfolio, its market penetration.

Siemens

ABB

Shenzhen ANSO IOT

Chongqing Chuanyi Automation

Endress+Hauser

Badger Meter

Nanjing Wotian

Zhejiang Diyuan Instrument

RunZhong Instrument

Supmea Automation

Oasis Instrument

KROHNE

Honeywell International Inc.

Tokyo Keiso Co., Ltd.

Azbil Kimmon

Key Questions Addressed in this Report

What is the 10-year outlook for the global Battery-Powered Electromagnetic Flowmeter market?

What factors are driving Battery-Powered Electromagnetic Flowmeter market growth, globally and by region?

Which technologies are poised for the fastest growth by market and region?

How do Battery-Powered Electromagnetic Flowmeter market opportunities vary

by end market size?

How does Battery-Powered Electromagnetic Flowmeter break out by Type, by Application?

Contents

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

2.1 World Market Overview

- 2.1.1 Global Battery-Powered Electromagnetic Flowmeter Annual Sales 2021-2032
- 2.1.2 World Current & Future Analysis for Battery-Powered Electromagnetic Flowmeter by Geographic Region, 2021, 2025 & 2032
- 2.1.3 World Current & Future Analysis for Battery-Powered Electromagnetic Flowmeter by Country/Region, 2021, 2025 & 2032

2.2 Battery-Powered Electromagnetic Flowmeter Segment by Type

- 2.2.1 All-in-One
- 2.2.2 Split Type
- 2.2.3 Battery-Powered Electromagnetic Flowmeter Sales by Type
 - 2.2.3.1 Global Battery-Powered Electromagnetic Flowmeter Sales Market Share by Type (2021-2026)
 - 2.2.3.2 Global Battery-Powered Electromagnetic Flowmeter Revenue and Market Share by Type (2021-2026)
 - 2.2.3.3 Global Battery-Powered Electromagnetic Flowmeter Sale Price by Type (2021-2026)

2.3 Battery-Powered Electromagnetic Flowmeter Segment by Connection Method

- 2.3.1 Flange Type
- 2.3.2 Plug-in Type
- 2.3.3 Clamp Type
- 2.3.4 Battery-Powered Electromagnetic Flowmeter Sales by Connection Method
 - 2.3.4.1 Global Battery-Powered Electromagnetic Flowmeter Sales Market Share by Connection Method (2021-2026)
 - 2.3.4.2 Global Battery-Powered Electromagnetic Flowmeter Revenue and Market

Share by Connection Method (2021-2026)

2.3.4.3 Global Battery-Powered Electromagnetic Flowmeter Sale Price by Connection Method (2021-2026)

2.4 Battery-Powered Electromagnetic Flowmeter Segment by Nominal Diameter

2.4.1 Small Diameter: DN 10–DN 50

2.4.2 Medium Diameter: DN 50–DN 200

2.4.3 Large Diameter: >DN 200

2.4.4 Battery-Powered Electromagnetic Flowmeter Sales by Nominal Diameter

2.4.4.1 Global Battery-Powered Electromagnetic Flowmeter Sales Market Share by Nominal Diameter (2021-2026)

2.4.4.2 Global Battery-Powered Electromagnetic Flowmeter Revenue and Market Share by Nominal Diameter (2021-2026)

2.4.4.3 Global Battery-Powered Electromagnetic Flowmeter Sale Price by Nominal Diameter (2021-2026)

2.5 Battery-Powered Electromagnetic Flowmeter Segment by Application

2.5.1 Urban Water Supply and Heating

2.5.2 Wastewater Treatment

2.5.3 Water Conservancy Projects

2.5.4 Agricultural Irrigation

2.5.5 Water Administration and Water Resources Management

2.5.6 Battery-Powered Electromagnetic Flowmeter Sales by Application

2.5.6.1 Global Battery-Powered Electromagnetic Flowmeter Sale Market Share by Application (2021-2026)

2.5.6.2 Global Battery-Powered Electromagnetic Flowmeter Revenue and Market Share by Application (2021-2026)

2.5.6.3 Global Battery-Powered Electromagnetic Flowmeter Sale Price by Application (2021-2026)

3 GLOBAL BY COMPANY

3.1 Global Battery-Powered Electromagnetic Flowmeter Breakdown Data by Company

3.1.1 Global Battery-Powered Electromagnetic Flowmeter Annual Sales by Company (2021-2026)

3.1.2 Global Battery-Powered Electromagnetic Flowmeter Sales Market Share by Company (2021-2026)

3.2 Global Battery-Powered Electromagnetic Flowmeter Annual Revenue by Company (2021-2026)

3.2.1 Global Battery-Powered Electromagnetic Flowmeter Revenue by Company (2021-2026)

3.2.2 Global Battery-Powered Electromagnetic Flowmeter Revenue Market Share by Company (2021-2026)

3.3 Global Battery-Powered Electromagnetic Flowmeter Sale Price by Company

3.4 Key Manufacturers Battery-Powered Electromagnetic Flowmeter Producing Area Distribution, Sales Area, Product Type

3.4.1 Key Manufacturers Battery-Powered Electromagnetic Flowmeter Product Location Distribution

3.4.2 Players Battery-Powered Electromagnetic Flowmeter Products Offered

3.5 Market Concentration Rate Analysis

3.5.1 Competition Landscape Analysis

3.5.2 Concentration Ratio (CR3, CR5 and CR10) & (2024-2026)

3.6 New Products and Potential Entrants

3.7 Market M&A Activity & Strategy

4 WORLD HISTORIC REVIEW FOR BATTERY-POWERED ELECTROMAGNETIC FLOWMETER BY GEOGRAPHIC REGION

4.1 World Historic Battery-Powered Electromagnetic Flowmeter Market Size by Geographic Region (2021-2026)

4.1.1 Global Battery-Powered Electromagnetic Flowmeter Annual Sales by Geographic Region (2021-2026)

4.1.2 Global Battery-Powered Electromagnetic Flowmeter Annual Revenue by Geographic Region (2021-2026)

4.2 World Historic Battery-Powered Electromagnetic Flowmeter Market Size by Country/Region (2021-2026)

4.2.1 Global Battery-Powered Electromagnetic Flowmeter Annual Sales by Country/Region (2021-2026)

4.2.2 Global Battery-Powered Electromagnetic Flowmeter Annual Revenue by Country/Region (2021-2026)

4.3 Americas Battery-Powered Electromagnetic Flowmeter Sales Growth

4.4 APAC Battery-Powered Electromagnetic Flowmeter Sales Growth

4.5 Europe Battery-Powered Electromagnetic Flowmeter Sales Growth

4.6 Middle East & Africa Battery-Powered Electromagnetic Flowmeter Sales Growth

5 AMERICAS

5.1 Americas Battery-Powered Electromagnetic Flowmeter Sales by Country

5.1.1 Americas Battery-Powered Electromagnetic Flowmeter Sales by Country (2021-2026)

5.1.2 Americas Battery-Powered Electromagnetic Flowmeter Revenue by Country (2021-2026)

5.2 Americas Battery-Powered Electromagnetic Flowmeter Sales by Type (2021-2026)

5.3 Americas Battery-Powered Electromagnetic Flowmeter Sales by Application (2021-2026)

5.4 United States

5.5 Canada

5.6 Mexico

5.7 Brazil

6 APAC

6.1 APAC Battery-Powered Electromagnetic Flowmeter Sales by Region

6.1.1 APAC Battery-Powered Electromagnetic Flowmeter Sales by Region (2021-2026)

6.1.2 APAC Battery-Powered Electromagnetic Flowmeter Revenue by Region (2021-2026)

6.2 APAC Battery-Powered Electromagnetic Flowmeter Sales by Type (2021-2026)

6.3 APAC Battery-Powered Electromagnetic Flowmeter Sales by Application (2021-2026)

6.4 China

6.5 Japan

6.6 South Korea

6.7 Southeast Asia

6.8 India

6.9 Australia

6.10 China Taiwan

7 EUROPE

7.1 Europe Battery-Powered Electromagnetic Flowmeter by Country

7.1.1 Europe Battery-Powered Electromagnetic Flowmeter Sales by Country (2021-2026)

7.1.2 Europe Battery-Powered Electromagnetic Flowmeter Revenue by Country (2021-2026)

7.2 Europe Battery-Powered Electromagnetic Flowmeter Sales by Type (2021-2026)

7.3 Europe Battery-Powered Electromagnetic Flowmeter Sales by Application (2021-2026)

7.4 Germany

7.5 France

7.6 UK

7.7 Italy

7.8 Russia

8 MIDDLE EAST & AFRICA

8.1 Middle East & Africa Battery-Powered Electromagnetic Flowmeter by Country

8.1.1 Middle East & Africa Battery-Powered Electromagnetic Flowmeter Sales by Country (2021-2026)

8.1.2 Middle East & Africa Battery-Powered Electromagnetic Flowmeter Revenue by Country (2021-2026)

8.2 Middle East & Africa Battery-Powered Electromagnetic Flowmeter Sales by Type (2021-2026)

8.3 Middle East & Africa Battery-Powered Electromagnetic Flowmeter Sales by Application (2021-2026)

8.4 Egypt

8.5 South Africa

8.6 Israel

8.7 Turkey

8.8 GCC Countries

9 MARKET DRIVERS, CHALLENGES AND TRENDS

9.1 Market Drivers & Growth Opportunities

9.2 Market Challenges & Risks

9.3 Industry Trends

10 MANUFACTURING COST STRUCTURE ANALYSIS

10.1 Raw Material and Suppliers

10.2 Manufacturing Cost Structure Analysis of Battery-Powered Electromagnetic Flowmeter

10.3 Manufacturing Process Analysis of Battery-Powered Electromagnetic Flowmeter

10.4 Industry Chain Structure of Battery-Powered Electromagnetic Flowmeter

11 MARKETING, DISTRIBUTORS AND CUSTOMER

11.1 Sales Channel

- 11.1.1 Direct Channels
- 11.1.2 Indirect Channels
- 11.2 Battery-Powered Electromagnetic Flowmeter Distributors
- 11.3 Battery-Powered Electromagnetic Flowmeter Customer

12 WORLD FORECAST REVIEW FOR BATTERY-POWERED ELECTROMAGNETIC FLOWMETER BY GEOGRAPHIC REGION

- 12.1 Global Battery-Powered Electromagnetic Flowmeter Market Size Forecast by Region
 - 12.1.1 Global Battery-Powered Electromagnetic Flowmeter Forecast by Region (2027-2032)
 - 12.1.2 Global Battery-Powered Electromagnetic Flowmeter Annual Revenue Forecast by Region (2027-2032)
- 12.2 Americas Forecast by Country (2027-2032)
- 12.3 APAC Forecast by Region (2027-2032)
- 12.4 Europe Forecast by Country (2027-2032)
- 12.5 Middle East & Africa Forecast by Country (2027-2032)
- 12.6 Global Battery-Powered Electromagnetic Flowmeter Forecast by Type (2027-2032)
- 12.7 Global Battery-Powered Electromagnetic Flowmeter Forecast by Application (2027-2032)

13 KEY PLAYERS ANALYSIS

- 13.1 Siemens
 - 13.1.1 Siemens Company Information
 - 13.1.2 Siemens Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.1.3 Siemens Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.1.4 Siemens Main Business Overview
 - 13.1.5 Siemens Latest Developments
- 13.2 ABB
 - 13.2.1 ABB Company Information
 - 13.2.2 ABB Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.2.3 ABB Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.2.4 ABB Main Business Overview

- 13.2.5 ABB Latest Developments
- 13.3 Shenzhen ANSO IOT
 - 13.3.1 Shenzhen ANSO IOT Company Information
 - 13.3.2 Shenzhen ANSO IOT Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.3.3 Shenzhen ANSO IOT Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.3.4 Shenzhen ANSO IOT Main Business Overview
 - 13.3.5 Shenzhen ANSO IOT Latest Developments
- 13.4 Chongqing Chuanyi Automation
 - 13.4.1 Chongqing Chuanyi Automation Company Information
 - 13.4.2 Chongqing Chuanyi Automation Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.4.3 Chongqing Chuanyi Automation Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.4.4 Chongqing Chuanyi Automation Main Business Overview
 - 13.4.5 Chongqing Chuanyi Automation Latest Developments
- 13.5 Endress+Hauser
 - 13.5.1 Endress+Hauser Company Information
 - 13.5.2 Endress+Hauser Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.5.3 Endress+Hauser Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.5.4 Endress+Hauser Main Business Overview
 - 13.5.5 Endress+Hauser Latest Developments
- 13.6 Badger Meter
 - 13.6.1 Badger Meter Company Information
 - 13.6.2 Badger Meter Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.6.3 Badger Meter Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.6.4 Badger Meter Main Business Overview
 - 13.6.5 Badger Meter Latest Developments
- 13.7 Nanjing Wotian
 - 13.7.1 Nanjing Wotian Company Information
 - 13.7.2 Nanjing Wotian Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.7.3 Nanjing Wotian Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)

- 13.7.4 Nanjing Wotian Main Business Overview
- 13.7.5 Nanjing Wotian Latest Developments
- 13.8 Zhejiang Diyuan Instrument
 - 13.8.1 Zhejiang Diyuan Instrument Company Information
 - 13.8.2 Zhejiang Diyuan Instrument Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.8.3 Zhejiang Diyuan Instrument Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.8.4 Zhejiang Diyuan Instrument Main Business Overview
 - 13.8.5 Zhejiang Diyuan Instrument Latest Developments
- 13.9 RunZhong Instrument
 - 13.9.1 RunZhong Instrument Company Information
 - 13.9.2 RunZhong Instrument Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.9.3 RunZhong Instrument Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.9.4 RunZhong Instrument Main Business Overview
 - 13.9.5 RunZhong Instrument Latest Developments
- 13.10 Supmea Automation
 - 13.10.1 Supmea Automation Company Information
 - 13.10.2 Supmea Automation Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.10.3 Supmea Automation Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.10.4 Supmea Automation Main Business Overview
 - 13.10.5 Supmea Automation Latest Developments
- 13.11 Oasis Instrument
 - 13.11.1 Oasis Instrument Company Information
 - 13.11.2 Oasis Instrument Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.11.3 Oasis Instrument Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.11.4 Oasis Instrument Main Business Overview
 - 13.11.5 Oasis Instrument Latest Developments
- 13.12 KROHNE
 - 13.12.1 KROHNE Company Information
 - 13.12.2 KROHNE Battery-Powered Electromagnetic Flowmeter Product Portfolios and Specifications
 - 13.12.3 KROHNE Battery-Powered Electromagnetic Flowmeter Sales, Revenue, Price

and Gross Margin (2021-2026)
