## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

The global Belts and Wallets market size is projected to grow from US\$ 21330 million in 2022 to US\$ 28270 million in 2029; it is expected to grow at a CAGR of 4.1% from 2023 to 2029.

The considerable demand for belts among working professionals, youth, and ladies is the key factor driving the market. Also, it is anticipated that throughout the forecast period, women's rising demand for fashionable, comfortable, and fancy belts would positively affect the belts market sector.

Manufacturers in the sustainable sector may find attractive business prospects as a result of the increase in demand for leather goods like belts and wallets. The industry has a tremendous chance for expansion as a result of the growing consumer awareness of sustainable and cruelty-free products. Recently, vegan leather and accessories from cruelty-free sources have become more fashionable, especially with the global millennial population.

A wallet is considered to be a daily use product by both men and women to keep one's personal belongings, money, and small travel documents that need to be protected from theft, damage, or weather exposure. The belt mainly functions as a tie, and now it also has aesthetic characteristics.
