The global Bike-Sharing Service market size is predicted to grow from US\$ 2026 million in 2025 to US\$ 8829 million in 2031; it is expected to grow at a CAGR of 27.8% from 2025 to 2031.

A bicycle-sharing system, public bicycle system, or bike-share scheme, is a service in which bicycles are made available for shared use to individuals on a short term basis for a price or free. Many bike share systems allow people to borrow a bike from a 'dock' and return it at another dock belonging to the same system. Docks are special bike racks that lock the bike, and only release it by computer control. The user enters payment information, and the computer unlocks a bike. The user returns the bike by placing it in the dock, which locks it in place. Other systems are dockless. For many systems, smartphone mapping apps show nearby available bikes and open docks.

Asia-Pacific is the largest Bike-Sharing Service market with about 52% market share. Europe is follower, accounting for about 23% market share. The key manufacturers are JUMP Bikes, Citi Bike, LimeBike, Capital Bikeshare, Divvy Bikes, Blue Bikes (Hubway), Ford GoBike, Mobike, Hellobike, Nextbike, Call a bike, Santander Cycles, V?lib, Bicing, SG Bike, Ola Pedal, Zoomcar PEDL, Mobycy, Yulu Bikes, Letscycle, Docomo Bikeshare etc. Top 5 companies occupied about 32% market share.
