The brush cutter is a versatile landscaping tool. Brush cutters come in all shapes and sizes, so finding the right model is important. Lightweight brush cutters, which usually weigh around 10-12 pounds, are best for trimming lawn edges and smaller landscaping projects. Most lightweight brush cutters have a grass trimming or cutting tool, though some models may have a brush knife attachment. These lightweight models are perfect for a homeowner with a smaller property.

The clearing saw is a tough piece of landscaping equipment that also comes in different sizes and features. Normally paired with a circular saw or brush knife cutting tool, clearing saws are literally for clearing anything in its path.
