A business phone number is a phone number without a SIM card. When you're taking business and personal calls on the same device, it's easy to make a mistake. The wrong greeting or slow response can send would-be customers to voicemail or even lose a sale. That's where business phone apps come in. They help you manage business calls on a single device. They're a simple solution to keep work and personal calls separate, letting you receive incoming calls on a dedicated business phone

number without carrying around two phones. The best platforms offer you the flexibility to use your personal phone, VoIP phone, or another internet-connected device like a laptop.
