The global Candies market size is projected to grow from US\$ million in 2022 to US\$ million in 2029; it is expected to grow at a CAGR of % from 2023 to 2029.

Convenience stores held significant shares in 2016. These stores are smaller in size as compared to the super markets. These stores are mainly opted due to the fact that they remain open 24 hours. However, these stores have high priced products as compared to other stores. Also, they offer lesser number of varied products as compared to other stores.

The other end use segment includes small sized grocery stores and specialty stores. Grocery stores comprise limited number of products, thus, pose to be disadvantageous as compared to the super markets. On the other hand, specialty stores offer only a single product category or related products. Customers prefer such stores depending on the product they tend to buy.

This report presents a comprehensive overview, market shares, and growth opportunities of Candies market by product type, application, key manufacturers and key regions and countries.
