The global Capital Projects Consulting market size is predicted to grow from US\$ million in 2025 to US\$ million in 2031; it is expected to grow at a CAGR of %from 2025 to 2031.

Capital Projects Consulting, also known as Capital Projects Advisory or Capital Projects Management Consulting, refers to a specialized area of consulting services focused on providing guidance, expertise, and support to organizations involved in planning, executing, and managing large-scale capital projects. These projects typically involve significant investments in infrastructure, construction, technology, or other assets and are critical to an organization's growth, development, or strategic objectives.

The integration of digital tools and technologies is transforming the way capital projects are planned, managed, and executed. Consultants are increasingly leveraging Building Information Modeling (BIM), 3D modeling, virtual reality (VR), and other digital solutions to enhance project visualization, collaboration, and decision-making.
