## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Car leasing refers to the business method in which the leasing operator delivers the leased cars (including trucks and passenger cars) to the lessee within the agreed time and does not provide driving services. The essence of car leasing is to separate the property rights of the car from the right to use, and to obtain income through the right to use the taxi. In addition to the physical car, the lease object also includes ensuring that the vehicle is normally and legally on the road. All procedures and related values of driving. Different from the general car rental business, during the rental period, the lessee assumes the driving responsibilities. The core idea of the car rental industry is to share resources and serve the society.
