Abstracts

The global Carbon Storage Transport Pipeline market size is predicted to grow from US\$ 1649 million in 2025 to US\$ 5957 million in 2032; it is expected to grow at a CAGR of 20.2% from 2026 to 2032.

Carbon Storage Transport Pipeline refers to a dedicated pipeline system within the carbon capture and storage value chain that continuously transports carbon dioxide captured from industrial production, oil and gas processing, power generation, low-carbon hydrogen and ammonia production, bioenergy, waste management or direct air capture facilities, following dehydration, purification, compression and pressurization, from the custody transfer point of a capture facility to the custody transfer point of an onshore or offshore geological storage site. The system comprises inlet compression facilities, gathering lines, trunk pipelines, laterals and delivery pipelines, intermediate booster facilities, and directly associated valves, fittings, cooling and pressure-control equipment, metering equipment, pressure-relief and isolation devices, leak-detection systems, control systems and pipeline integrity management facilities. It may transport carbon dioxide in gaseous, dense, supercritical or liquid phase and may be configured as a point-to-point pipeline, a shared cluster network or a regional trunk network.

Key Findings

Shared transport networks are becoming the preferred infrastructure model for connecting industrial clusters with permanent geological storage

Engineering and construction services represent the largest segment as major storage networks move into project execution

New-build pipelines dominate current investment while repurposing remains dependent on detailed asset qualification

Europe leads emerging offshore storage pipeline construction around the North Sea and adjacent industrial regions

Cement hydrogen power and carbon removal projects are expanding the future customer base for storage transportation

Market Trends

Carbon Storage Transport Pipeline is moving from individually configured source-to-storage links toward multi-user infrastructure connecting industrial clusters with shared geological storage capacity. New networks increasingly use standardized carbon dioxide specifications, open-access connection rules, oversized trunk lines and modular compression capacity to accommodate additional emitters after initial commissioning. Dense and supercritical transport remain central to high-volume, long-distance systems, while gaseous pipelines are used in smaller gathering networks and liquid-phase pipelines support selected terminal and offshore configurations. Technology development is focused on impurity control, dehydration, fracture arrest, decompression behaviour, low-temperature material performance, corrosion resistance, automated isolation and real-time leak detection. Offshore storage projects are increasing demand for high-strength steel line pipe, subsea construction, flexible connections and thermoplastic composite products. Repurposing existing hydrocarbon pipelines is gaining attention where routes align with storage sites, but conversion decisions increasingly require asset-specific material, weld, fatigue and pressure assessments. Commercially, the sector is developing around regulated transport and storage companies, long-term capacity reservations, connection charges, take-or-pay contracts and government-backed revenue support.

Market Dynamics

Drivers

Growth is primarily driven by the transition of carbon capture projects from demonstration into industrial clusters with dedicated geological storage. Decarbonization requirements in cement, lime, steel, refining, chemicals and hydrogen production are creating concentrated carbon dioxide streams that require reliable transport to saline formations and depleted oil and gas reservoirs. Government-

supported cluster programs in Europe, policy incentives in North America and emerging storage strategies in China, Australia and the Middle East are improving project bankability. The European Union's objective of establishing at least 50 million tonnes of annual carbon dioxide injection capacity by 2030 requires corresponding gathering and trunk transportation infrastructure. Shared pipelines also reduce duplication and lower unit transportation costs by aggregating several emitters, making permanent storage more accessible to facilities that could not economically support a dedicated pipeline.

Restraints

The market is restrained by high upfront capital requirements, long permitting and route-development periods, and uncertainty over the timing and volume of connected capture projects. Storage pipelines are exposed to cross-chain risk because transport revenue depends on capture facilities, pipeline infrastructure and geological storage capacity becoming available on compatible schedules. Early construction of oversized networks can result in low initial utilization, while conservative capacity design may require expensive expansion after additional users connect. Storage licensing, long-term liability, cross-border carbon dioxide accounting and transportation tariff frameworks remain incomplete in several markets. Public concern regarding pipeline safety and routing can delay approvals, particularly where dense-phase pipelines cross populated areas. Smaller and geographically dispersed emitters may remain commercially unattractive without access to a shared gathering network.

Opportunities

The largest opportunity lies in developing open-access transport networks around industrial ports, high-emission corridors and proven storage basins. North Sea projects are creating demand for onshore gathering systems, coastal compression facilities and offshore trunk pipelines linking emitters in several countries with shared storage sites. Further opportunities arise from converting technically suitable natural gas pipelines, expanding storage networks with new laterals and compressor stations, and connecting bioenergy and direct air capture projects that require permanent storage to deliver durable carbon removal. North American networks can progressively shift from enhanced oil recovery-oriented infrastructure toward dedicated saline storage services, while China and the Middle East can integrate storage pipelines with refining, coal-chemical, gas-processing, hydrogen and ammonia projects. Recurring opportunities will develop in pipeline inspection, carbon dioxide quality monitoring, integrity management, digital flow assurance, leak detection and capacity optimization.

Challenges

The principal technical challenge is transporting carbon dioxide safely under changing composition, pressure, temperature and flow conditions. Water, oxygen, hydrogen sulfide, nitrogen, sulfur oxides and other impurities can alter phase behaviour, increase corrosion risk and affect compression, metering and fracture propagation. Multi-user networks therefore require enforceable carbon dioxide quality specifications and clear responsibility for off-specification streams. Intermittent supply and changing storage-site injection availability must be managed without disrupting connected capture facilities. Offshore pipelines face additional requirements related to seabed conditions, installation loads, external pressure, corrosion protection and intervention access. Repurposed pipelines require detailed requalification of materials, welds, valves, pressure ratings and emergency isolation systems. Commercial challenges include allocating capacity among users, coordinating network expansion, setting transparent tariffs and maintaining viable project economics during the early period of low utilization.

Industry Chain Analysis

The upstream segment comprises line-pipe steel, steel plate, corrosion-resistant alloys, polymers, reinforcing fibres, valves, fittings, seals, compressors, pumps, coolers, metering instruments, sensors, control systems and leak-detection technologies. Midstream participants manufacture seamless and welded line pipe, flexible pipe and composite pipe; provide front-end engineering, procurement, construction, offshore installation, commissioning, inspection and certification; and develop or operate gathering networks and trunk pipelines. Value creation depends on material qualification, carbon dioxide conditioning, hydraulic and phase design, route engineering, compression efficiency, system availability and long-term integrity performance. Downstream customers include oil and gas processors, power producers, hydrogen and ammonia developers, cement and steel groups, refiners, chemical and fertilizer producers, waste-management companies and engineered carbon-removal operators. Geological storage operators establish receiving specifications and injection schedules that directly influence pipeline design and operation. Operators capable of coordinating multiple emitters, allocating capacity and maintaining reliable custody transfer under long-term contracts occupy an increasingly important position in the industry chain.

Segment Insights

By business category, Engineering and Construction Services currently represents the largest segment because several major storage transportation networks are in the design, procurement, construction or commissioning phase. Pipeline Products and

Equipment covers steel line pipe, flexible and composite pipe, valves, compression and boosting equipment, metering systems, monitoring technologies and directly associated components. Pipeline Transportation and Operation Services will increase in importance as dedicated storage networks commence commercial operation and generate recurring capacity, connection and throughput revenue. Others primarily covers technical assurance, testing, certification, carbon dioxide quality management, inspection and integrity services.

By Pipeline Network Structure, Point-to-Point Pipeline remains relevant for one anchor emitter connected to one defined geological store. Cluster and Shared Pipeline Network is becoming the principal development model for ports and industrial regions because it aggregates several carbon sources and spreads infrastructure costs across multiple users. Regional Trunk Pipeline Network represents the longer-term infrastructure layer connecting several clusters, gathering hubs and storage basins through high-capacity corridors. By Project Development Type, New-Build Pipeline dominates current activity because most emerging storage hubs require dedicated carbon dioxide infrastructure. Repurposed Pipeline can reduce construction requirements where existing assets satisfy route, material and pressure conditions, while Pipeline Expansion and Upgrade will grow as operating networks add emitters, laterals, compression capacity and storage destinations.

Downstream Market Opportunities

Oil and Gas Processing provides concentrated carbon dioxide streams and relevant pipeline operating experience, but market growth is shifting toward dedicated geological storage rather than utilization-led transportation. Power Generation can provide large and relatively stable throughput, making capture-equipped power plants potential anchor users for regional networks. Low-Carbon Hydrogen and Ammonia Production offers scalable volumes from reforming and gasification processes. Cement, Lime and Iron & Steel are strategically important because significant emissions arise from process chemistry and cannot be eliminated solely through fuel substitution. Refining, Chemicals and Fertilizers benefit from integration within industrial clusters where several capture units can share compression and gathering infrastructure. Others includes bioethanol, bioenergy with carbon capture and storage, waste-to-energy and direct air capture, which create demand for permanent storage pipelines supporting negative-emission services.

Regional Insights

Europe is the most active emerging market for dedicated carbon storage transportation, led by North Sea storage development and government-supported industrial clusters. The Netherlands, Norway, the United Kingdom, Belgium, Denmark, France, Germany and Italy are developing onshore gathering networks, coastal hubs and offshore trunk pipelines. Porthos, Northern Lights, Northern Endurance Partnership, HyNet and related projects are establishing technical specifications and commercial models for multi-user transport and storage. Cross-border infrastructure is also encouraging standardized carbon dioxide quality, third-party access and regulated transportation arrangements.

North America combines the world's largest established carbon dioxide pipeline base with a growing portfolio of dedicated geological storage projects, particularly along the United States Gulf Coast and in western Canada. China is developing pipeline transportation around oilfields, coal-chemical facilities, power plants and industrial demonstration projects, supported by domestic steel-pipe and energy-equipment manufacturing. The Middle East has potential in natural gas processing and low-carbon hydrogen and ammonia, while Australia and Southeast Asia are evaluating offshore storage hubs capable of serving domestic and cross-border carbon dioxide sources. Regional growth will depend on storage licensing, source-to-sink coordination and long-term transport tariffs.

Competitive Landscape Analysis

Competition is distributed across network developers, engineering contractors, equipment suppliers, line-pipe manufacturers and technical-assurance companies. ExxonMobil, Enbridge, Gasunie and Fluxys participate through transport-network development, carbon-source aggregation and future operating services, while Kinder Morgan brings extensive carbon dioxide pipeline experience but must separate dedicated storage activities from its established enhanced oil recovery business. Saipem and Technip Energies compete in front-end engineering, pipeline construction and offshore installation. Baker Hughes, Linde, Air Products and NOV supply compression, conditioning, monitoring or pipeline-system technologies. Tenaris, Vallourec, EUROPIPE, Welspun Corp, Corinth Pipeworks, Mannesmann Line Pipe, AMERICAN Steel Pipe and CNPC Bohai Equipment Manufacturing compete in qualified line pipe and associated products, while Strohm addresses specialized offshore transportation with thermoplastic composite pipe. DNV provides qualification, certification and integrity assurance. Competitive differentiation increasingly depends on proven carbon dioxide qualification, offshore capability, fracture and impurity management, multi-user network operation and lifecycle service coverage.

Report Scope

LPI (LP Information)' newest research report, the “Carbon Storage Transport Pipeline Industry Forecast” looks at past sales and reviews total world Carbon Storage Transport Pipeline sales in 2025, providing a comprehensive analysis by region and market sector of projected Carbon Storage Transport Pipeline sales for 2026 through 2032. With Carbon Storage Transport Pipeline sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the world Carbon Storage Transport Pipeline industry.

This Insight Report provides a comprehensive analysis of the global Carbon Storage Transport Pipeline landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyses the strategies of leading global companies with a focus on Carbon Storage Transport Pipeline portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global Carbon Storage Transport Pipeline market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Carbon Storage Transport Pipeline and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Carbon Storage Transport Pipeline.

This report presents a comprehensive overview, market shares, and growth opportunities of Carbon Storage Transport Pipeline market by product type, application, key players and key regions and countries.

Market Segmentation

Segmentation by Type:

Pipeline Products and Equipment

Engineering and Construction Services

Pipeline Transportation and Operation Services

Others

Segmentation by Pipeline Network Structure:

Point-to-Point Pipeline

Cluster and Shared Pipeline Network

Regional Trunk Pipeline Network

Segmentation by Project Development Type:

New-Build Pipeline

Repurposed Pipeline

Pipeline Expansion and Upgrade

Segmentation by Application:

Oil and Gas Processing

Power Generation

Low-Carbon Hydrogen and Ammonia Production

Cement, Lime and Iron & Steel

Refining, Chemicals and Fertilizers

Others

This report also splits the market by region:

Americas

United States

Canada

Mexico

Brazil

APAC

China

Japan

Korea

Southeast Asia

India

Australia

Europe

Germany

France

UK

Italy

Russia

Middle East & Africa

Egypt

South Africa

Israel

Turkey

GCC Countries

The below companies that are profiled have been selected based on inputs gathered from primary experts and analyzing the company's coverage, product portfolio, its market penetration.

ExxonMobil

Kinder Morgan

Saipem

Baker Hughes

Linde

Tenaris

Air Products

Gasunie

Enbridge

Technip Energies

NOV

Fluxys

Vallourec

EUROPIPE

Welspun Corp

Corinth Pipeworks

DNV

Mannesmann Line Pipe

AMERICAN Steel Pipe

Strohm

CNPC Bohai Equipment Manufacturing

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

- 2.1 World Market Overview
 - 2.1.1 Global Carbon Storage Transport Pipeline Market Size (2021-2032)
 - 2.1.2 Carbon Storage Transport Pipeline Market Size CAGR by Region (2021 VS 2025 VS 2032)
 - 2.1.3 World Current & Future Analysis for Carbon Storage Transport Pipeline by Country/Region (2021, 2025 & 2032)
- 2.2 Carbon Storage Transport Pipeline Segment by Type
 - 2.2.1 Pipeline Products and Equipment
 - 2.2.2 Engineering and Construction Services
 - 2.2.3 Pipeline Transportation and Operation Services
 - 2.2.4 Others
 - 2.2.5 Carbon Storage Transport Pipeline Market Size by Type
 - 2.2.5.1 Carbon Storage Transport Pipeline Market Size CAGR by Type (2021 VS 2025 VS 2032)
 - 2.2.5.2 Global Carbon Storage Transport Pipeline Market Size Market Share by Type (2021-2026)
- 2.3 Carbon Storage Transport Pipeline Segment by Pipeline Network Structure
 - 2.3.1 Point-to-Point Pipeline
 - 2.3.2 Cluster and Shared Pipeline Network
 - 2.3.3 Regional Trunk Pipeline Network
 - 2.3.4 Carbon Storage Transport Pipeline Market Size by Pipeline Network Structure
 - 2.3.4.1 Carbon Storage Transport Pipeline Market Size CAGR by Pipeline Network Structure (2021 VS 2025 VS 2032)
 - 2.3.4.2 Global Carbon Storage Transport Pipeline Market Size Market Share by

Pipeline Network Structure (2021-2026)

2.4 Carbon Storage Transport Pipeline Segment by Project Development Type

2.4.1 New-Build Pipeline

2.4.2 Repurposed Pipeline

2.4.3 Pipeline Expansion and Upgrade

2.4.4 Carbon Storage Transport Pipeline Market Size by Project Development Type

2.4.4.1 Carbon Storage Transport Pipeline Market Size CAGR by Project

Development Type (2021 VS 2025 VS 2032)

2.4.4.2 Global Carbon Storage Transport Pipeline Market Size Market Share by Project Development Type (2021-2026)

2.5 Carbon Storage Transport Pipeline Segment by Application

2.5.1 Oil and Gas Processing

2.5.2 Power Generation

2.5.3 Low-Carbon Hydrogen and Ammonia Production

2.5.4 Cement, Lime and Iron & Steel

2.5.5 Refining, Chemicals and Fertilizers

2.5.6 Others

2.5.7 Carbon Storage Transport Pipeline Market Size by Application

2.5.7.1 Carbon Storage Transport Pipeline Market Size CAGR by Application (2021 VS 2025 VS 2032)

2.5.7.2 Global Carbon Storage Transport Pipeline Market Size Market Share by Application (2021-2026)

3 CARBON STORAGE TRANSPORT PIPELINE MARKET SIZE BY PLAYER

3.1 Carbon Storage Transport Pipeline Market Size Market Share by Player

3.1.1 Global Carbon Storage Transport Pipeline Revenue by Player (2021-2026)

3.1.2 Global Carbon Storage Transport Pipeline Revenue Market Share by Player (2021-2026)

3.2 Global Carbon Storage Transport Pipeline Key Players Head office and Products Offered

3.3 Market Concentration Rate Analysis

3.3.1 Competition Landscape Analysis

3.3.2 Concentration Ratio (CR3, CR5 and CR10) & (2024-2026)

3.4 New Products and Potential Entrants

3.5 Mergers & Acquisitions, Expansion

4 CARBON STORAGE TRANSPORT PIPELINE BY REGION

- 4.1 Carbon Storage Transport Pipeline Market Size by Region (2021-2026)
- 4.2 Global Carbon Storage Transport Pipeline Annual Revenue by Country/Region (2021-2026)
- 4.3 Americas Carbon Storage Transport Pipeline Market Size Growth (2021-2026)
- 4.4 APAC Carbon Storage Transport Pipeline Market Size Growth (2021-2026)
- 4.5 Europe Carbon Storage Transport Pipeline Market Size Growth (2021-2026)
- 4.6 Middle East & Africa Carbon Storage Transport Pipeline Market Size Growth (2021-2026)

5 AMERICAS

- 5.1 Americas Carbon Storage Transport Pipeline Market Size by Country (2021-2026)
- 5.2 Americas Carbon Storage Transport Pipeline Market Size by Type (2021-2026)
- 5.3 Americas Carbon Storage Transport Pipeline Market Size by Application (2021-2026)
- 5.4 United States
- 5.5 Canada
- 5.6 Mexico
- 5.7 Brazil

6 APAC

- 6.1 APAC Carbon Storage Transport Pipeline Market Size by Region (2021-2026)
- 6.2 APAC Carbon Storage Transport Pipeline Market Size by Type (2021-2026)
- 6.3 APAC Carbon Storage Transport Pipeline Market Size by Application (2021-2026)
- 6.4 China
- 6.5 Japan
- 6.6 South Korea
- 6.7 Southeast Asia
- 6.8 India
- 6.9 Australia

7 EUROPE

- 7.1 Europe Carbon Storage Transport Pipeline Market Size by Country (2021-2026)
- 7.2 Europe Carbon Storage Transport Pipeline Market Size by Type (2021-2026)
- 7.3 Europe Carbon Storage Transport Pipeline Market Size by Application (2021-2026)
- 7.4 Germany
- 7.5 France

7.6 UK

7.7 Italy

7.8 Russia

8 MIDDLE EAST & AFRICA

8.1 Middle East & Africa Carbon Storage Transport Pipeline by Region (2021-2026)

8.2 Middle East & Africa Carbon Storage Transport Pipeline Market Size by Type (2021-2026)

8.3 Middle East & Africa Carbon Storage Transport Pipeline Market Size by Application (2021-2026)

9.3 Industry Trends

10 GLOBAL CARBON STORAGE TRANSPORT PIPELINE MARKET FORECAST

10.1 Global Carbon Storage Transport Pipeline Forecast by Region (2027-2032)

10.1.1 Global Carbon Storage Transport Pipeline Forecast by Region (2027-2032)

10.1.2 Americas Carbon Storage Transport Pipeline Forecast

10.1.3 APAC Carbon Storage Transport Pipeline Forecast

10.1.4 Europe Carbon Storage Transport Pipeline Forecast

10.1.5 Middle East & Africa Carbon Storage Transport Pipeline Forecast

10.2 Americas Carbon Storage Transport Pipeline Forecast by Country (2027-2032)

10.2.1 United States Market Carbon Storage Transport Pipeline Forecast

10.2.2 Canada Market Carbon Storage Transport Pipeline Forecast

10.2.3 Mexico Market Carbon Storage Transport Pipeline Forecast

10.2.4 Brazil Market Carbon Storage Transport Pipeline Forecast

10.3 APAC Carbon Storage Transport Pipeline Forecast by Region (2027-2032)

10.3.1 China Carbon Storage Transport Pipeline Market Forecast

10.3.2 Japan Market Carbon Storage Transport Pipeline Forecast

- 10.3.3 Korea Market Carbon Storage Transport Pipeline Forecast
- 10.3.4 Southeast Asia Market Carbon Storage Transport Pipeline Forecast
- 10.3.5 India Market Carbon Storage Transport Pipeline Forecast
- 10.3.6 Australia Market Carbon Storage Transport Pipeline Forecast
- 10.4 Europe Carbon Storage Transport Pipeline Forecast by Country (2027-2032)
 - 10.4.1 Germany Market Carbon Storage Transport Pipeline Forecast
 - 10.4.2 France Market Carbon Storage Transport Pipeline Forecast
 - 10.4.3 UK Market Carbon Storage Transport Pipeline Forecast
 - 10.4.4 Italy Market Carbon Storage Transport Pipeline Forecast
 - 10.4.5 Russia Market Carbon Storage Transport Pipeline Forecast
- 10.5 Middle East & Africa Carbon Storage Transport Pipeline Forecast by Region (2027-2032)
 - 10.5.1 Egypt Market Carbon Storage Transport Pipeline Forecast
 - 10.5.2 South Africa Market Carbon Storage Transport Pipeline Forecast
 - 10.5.3 Israel Market Carbon Storage Transport Pipeline Forecast
 - 10.5.4 Turkey Market Carbon Storage Transport Pipeline Forecast
- 10.6 Global Carbon Storage Transport Pipeline Forecast by Type (2027-2032)
- 10.7 Global Carbon Storage Transport Pipeline Forecast by Application (2027-2032)
 - 10.7.1 GCC Countries Market Carbon Storage Transport Pipeline Forecast

11 KEY PLAYERS ANALYSIS

11.1 ExxonMobil

- 11.1.1 ExxonMobil Company Information
- 11.1.2 ExxonMobil Carbon Storage Transport Pipeline Product Offered
- 11.1.3 ExxonMobil Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)
- 11.1.4 ExxonMobil Main Business Overview
- 11.1.5 ExxonMobil Latest Developments

11.2 Kinder Morgan

- 11.2.1 Kinder Morgan Company Information
- 11.2.2 Kinder Morgan Carbon Storage Transport Pipeline Product Offered
- 11.2.3 Kinder Morgan Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)
- 11.2.4 Kinder Morgan Main Business Overview
- 11.2.5 Kinder Morgan Latest Developments

11.3 Saipem

- 11.3.1 Saipem Company Information
- 11.3.2 Saipem Carbon Storage Transport Pipeline Product Offered

11.3.3 Saipem Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.3.4 Saipem Main Business Overview

11.3.5 Saipem Latest Developments

11.4 Baker Hughes

11.4.1 Baker Hughes Company Information

11.4.2 Baker Hughes Carbon Storage Transport Pipeline Product Offered

11.4.3 Baker Hughes Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.4.4 Baker Hughes Main Business Overview

11.4.5 Baker Hughes Latest Developments

11.5 Linde

11.5.1 Linde Company Information

11.5.2 Linde Carbon Storage Transport Pipeline Product Offered

11.5.3 Linde Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.5.4 Linde Main Business Overview

11.5.5 Linde Latest Developments

11.6 Tenaris

11.6.1 Tenaris Company Information

11.6.2 Tenaris Carbon Storage Transport Pipeline Product Offered

11.6.3 Tenaris Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.6.4 Tenaris Main Business Overview

11.6.5 Tenaris Latest Developments

11.7 Air Products

11.7.1 Air Products Company Information

11.7.2 Air Products Carbon Storage Transport Pipeline Product Offered

11.7.3 Air Products Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.7.4 Air Products Main Business Overview

11.7.5 Air Products Latest Developments

11.8 Gasunie

11.8.1 Gasunie Company Information

11.8.2 Gasunie Carbon Storage Transport Pipeline Product Offered

11.8.3 Gasunie Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.8.4 Gasunie Main Business Overview

11.8.5 Gasunie Latest Developments

11.9 Enbridge

11.9.1 Enbridge Company Information

11.9.2 Enbridge Carbon Storage Transport Pipeline Product Offered

11.9.3 Enbridge Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.9.4 Enbridge Main Business Overview

11.9.5 Enbridge Latest Developments

11.10 Technip Energies

11.10.1 Technip Energies Company Information

11.10.2 Technip Energies Carbon Storage Transport Pipeline Product Offered

11.10.3 Technip Energies Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.10.4 Technip Energies Main Business Overview

11.10.5 Technip Energies Latest Developments

11.11 NOV

11.11.1 NOV Company Information

11.11.2 NOV Carbon Storage Transport Pipeline Product Offered

11.11.3 NOV Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.11.4 NOV Main Business Overview

11.11.5 NOV Latest Developments

11.12 Fluxys

11.12.1 Fluxys Company Information

11.12.2 Fluxys Carbon Storage Transport Pipeline Product Offered

11.12.3 Fluxys Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.12.4 Fluxys Main Business Overview

11.12.5 Fluxys Latest Developments

11.13 Vallourec

11.13.1 Vallourec Company Information

11.13.2 Vallourec Carbon Storage Transport Pipeline Product Offered

11.13.3 Vallourec Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.13.4 Vallourec Main Business Overview

11.13.5 Vallourec Latest Developments

11.14 EUROPIPE

11.14.1 EUROPIPE Company Information

11.14.2 EUROPIPE Carbon Storage Transport Pipeline Product Offered

11.14.3 EUROPIPE Carbon Storage Transport Pipeline Revenue, Gross Margin and

Market Share (2021-2026)

11.14.4 EUROPIPE Main Business Overview

11.14.5 EUROPIPE Latest Developments

11.15 Welspun Corp

11.15.1 Welspun Corp Company Information

11.15.2 Welspun Corp Carbon Storage Transport Pipeline Product Offered

11.15.3 Welspun Corp Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.15.4 Welspun Corp Main Business Overview

11.15.5 Welspun Corp Latest Developments

11.16 Corinth Pipeworks

11.16.1 Corinth Pipeworks Company Information

11.16.2 Corinth Pipeworks Carbon Storage Transport Pipeline Product Offered

11.16.3 Corinth Pipeworks Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.16.4 Corinth Pipeworks Main Business Overview

11.16.5 Corinth Pipeworks Latest Developments

11.17 DNV

11.17.1 DNV Company Information

11.17.2 DNV Carbon Storage Transport Pipeline Product Offered

11.17.3 DNV Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.17.4 DNV Main Business Overview

11.17.5 DNV Latest Developments

11.18 Mannesmann Line Pipe

11.18.1 Mannesmann Line Pipe Company Information

11.18.2 Mannesmann Line Pipe Carbon Storage Transport Pipeline Product Offered

11.18.3 Mannesmann Line Pipe Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.18.4 Mannesmann Line Pipe Main Business Overview

11.18.5 Mannesmann Line Pipe Latest Developments

11.19 AMERICAN Steel Pipe

11.19.1 AMERICAN Steel Pipe Company Information

11.19.2 AMERICAN Steel Pipe Carbon Storage Transport Pipeline Product Offered

11.19.3 AMERICAN Steel Pipe Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)

11.19.4 AMERICAN Steel Pipe Main Business Overview

11.19.5 AMERICAN Steel Pipe Latest Developments

11.20 Strohm

- 11.20.1 Strohm Company Information
- 11.20.2 Strohm Carbon Storage Transport Pipeline Product Offered
- 11.20.3 Strohm Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)
- 11.20.4 Strohm Main Business Overview
- 11.20.5 Strohm Latest Developments
- 11.21 CNPC Bohai Equipment Manufacturing
 - 11.21.1 CNPC Bohai Equipment Manufacturing Company Information
 - 11.21.2 CNPC Bohai Equipment Manufacturing Carbon Storage Transport Pipeline Product Offered
 - 11.21.3 CNPC Bohai Equipment Manufacturing Carbon Storage Transport Pipeline Revenue, Gross Margin and Market Share (2021-2026)
 - 11.21.4 CNPC Bohai Equipment Manufacturing Main Business Overview
 - 11.21.5 CNPC Bohai Equipment Manufacturing Latest Developments
