Carrot molasses is a sweetener extracted and concentrated from carrot juice, also known as carrot syrup or carrot juice concentrate. It usually has a tangy sweet taste with a certain carrot flavor. Carrot molasses can be used as a sweetener in food processing. It not only provides sweetness, but also adds nutrients to carrots, such as beta-carotene. Carrot molasses is commonly used to make sauces, dressings, baked goods, jams, jellies, desserts, and more. It is worth noting that although carrot molasses has more nutrients than ordinary sucrose, it is still a high-sugar food and should be consumed in moderation, especially for people with blood sugar control needs.
