Carton mobile racking is a storage racking system composed of gravity mobile racking lanes. This racking method keeps all materials/inventory within the range of the pickers. Overall, this helps increase efficiency and productivity by reducing the time it takes for pickers to fill orders. The carton mobile rack has fewer mechanical parts, so it requires less maintenance and uses gravity to operate. Use carton mobile racks to save space-up to 50% savings compared to static racks and shelves

Increase picking locations-up to 40 locations per compartment

Reduce travel time and equipment requirements

Save labor immediately-up to 50%

Significantly increase productivity
