Ceramic tile liners, also known as tile liners or ceramic border tiles, are decorative tiles used to create borders or accents in tiled surfaces, particularly in areas such as bathrooms, kitchens, and other interior spaces.Ceramic tile liners are typically narrower and longer than regular tiles, and they are often used to outline or separate different sections of a tiled surface, such as a wall or a floor. They come in various sizes, shapes, colors, and patterns, allowing for a wide range of design possibilities.These liners can be made from various ceramic materials, including porcelain and earthenware. They are manufactured using a similar process to regular ceramic tiles, involving forming, drying, glazing, and firing.Ceramic tile liners not only add aesthetic appeal to tiled surfaces but also serve practical purposes. They can provide a finished edge, protect tile edges from chipping or damage, and create a visual transition between different tile patterns or colors.
