The global Charitable Giving market size is predicted to grow from US$ million in 2025 to US$ million in 2031; it is expected to grow at a CAGR of %from 2025 to 2031.

A charitable giving is a gift of cash or property made to a nonprofit organization to help it accomplish its goals, for which the donor receives nothing of value in return. In the U.S., donations can be deducted from the federal tax returns of individuals and companies making them. The Internal Revenue Service (IRS) restricts the types of donations that can be made and the types of organizations that can receive them. In order to deduct charitable contributions, the recipient charity must be a qualified organization in the eyes of the IRS.
