Abstracts

According to this study, the global Chiropractic market size will reach US\$ 13590 million by 2031.

A chiropractor is a health care professional focused on the diagnosis and treatment of neuromuscular disorders, with an emphasis on treatment through manual adjustment and/or manipulation of the spine.

The market growth largely depends on the treatment adoption from the patients who prefer non-invasive treatment of chronic pains. Increasing prescription pain drug abuse and awareness about this treatment are among the key factors responsible for global market growth.

LPI (LP Information)' newest research report, the "Chiropractic Industry Forecast" looks at past sales and reviews total world Chiropractic sales in 2024, providing a comprehensive analysis by region and market sector of projected Chiropractic sales for 2025 through 2031.
