## Abstracts

The global Claims Management Services market size is predicted to grow from US$ 28270 million in 2025 to US$ 53470 million in 2031; it is expected to grow at a CAGR of 11.2% from 2025 to 2031.

Claims management services refer to the process of handling insurance claims on behalf of policyholders or claimants. In the insurance industry, when individuals or businesses experience a loss covered by their insurance policies, they file a claim to seek compensation for the damages or losses incurred. Claims management services involve the entire lifecycle of a claim, from the initial reporting of the loss to the final settlement.

Increased use of automation technologies, including robotic process automation (RPA) and artificial intelligence (AI), to streamline routine tasks in claims processing, reducing manual effort and improving efficiency.
