Cleaning Agent for Cold Box is chemical agent used in the metal cold box process to quickly dissolve and remove cured resin, dirt, and molding sand residue from the mold surface. They effectively clean the core box and vents, keeping the vents clear, without damaging the mold surface, sealing strips, or other components.

Cold box cleaning agents fall under the sub-category of casting chemicals, with upstream components primarily consisting of various organic solvents, water, and functional additives. Downstream components are large and medium-sized foundries using cold box processes to maintain process stability and casting quality.

Global sales volume in 2024 was approximately 20,000 tons, with an average market price of approximately US$5,000 per ton. The scale of single-line production capacity varies depending on production processes and investment scale. Industry gross profit margins range from 15% to 30%.

Report Scope

LP Information, Inc. (LPI) ' newest research report, the “Cleaning Agent for Cold Box Industry Forecast” looks at past sales and reviews total world Cleaning Agent for Cold Box sales in 2025, providing a comprehensive analysis by region and market sector of projected Cleaning Agent for Cold Box sales for 2026 through 2032. With Cleaning Agent for Cold Box sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US$ millions of the world Cleaning Agent for Cold Box industry.

This Insight Report provides a comprehensive analysis of the global Cleaning Agent for Cold Box landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on Cleaning Agent for Cold Box portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms’ unique position in an accelerating global Cleaning Agent for Cold Box market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Cleaning Agent for Cold Box and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Cleaning Agent for Cold Box.

This report presents a comprehensive overview, market shares, and growth opportunities of Cleaning Agent for Cold Box market by product type, application, key manufacturers and key regions and countries.
