According to our LPI (LP Information) latest study, the global Cloud Professional Services market size was valued at US\$ 3446.4 million in 2023. With growing demand in downstream market, the Cloud Professional Services is forecast to a readjusted size of US\$ 12740 million by 2030 with a CAGR of 20.5% during review period.

The research report highlights the growth potential of the global Cloud Professional Services market. Cloud Professional Services are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Cloud Professional Services. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Cloud Professional Services market.

Cloud professional services market refers a combination of capabilities including consulting/technical skills and functional knowledge.

An increased number of cloud solutions from various vendors have created a complex cloud environment. Cloud customers are struggling with integrating and managing applications, workloads, cloud stacks, and other facets of the shift to cloud. They are spending heavily on consultants and system integrators to educate, plan, and implement their cloud environments.

Global Cloud Professional Services key players include Deloitte, Accenture plc, Capgemini S.A., IBM, Cisco Systems, Inc., etc. Global top five manufacturers hold a

share about 40%.

North America is the largest market, with a share over 40%, followed by Europe and China, both have a share over 40 percent.

In terms of product, Public Cloud is the largest segment, with a share about 70%. And in terms of application, the largest application is Banking, Financial Services & Insurance (BFSI), followed by IT and Telecommunications.
