Co-polyester ether elastomer is a tough, clear, durable, general purpose grade co-polyester ether. Co-polyester ether elastomers are generally used in the automotive market. They are also used in packaging and tubing applications where toughness and flex-crack resistance are required. Co-polyester ether elastomer can be used in injection molding and cast film or tubing extrusion applications or in any application that demands strength, durability, and puncture resistance in harsh environments. Co-polyester ether elastomer combines toughness, clarity, and flexibility without the addition of plasticizers
