Commercial Laundry Machine is a machine used to wash laundry, such as clothing and sheets. The term is mostly applied to machines that use water as opposed to dry cleaning (which uses alternative cleaning fluids, and is performed by specialist businesses) or ultrasonic cleaners.

Commercial Laundry Machine is engineered to minimize downtime and streamline maintenance. When it comes to speed, dry times for commercial washing machine are pretty much on par with domestic. Because commercial washers and dryers are designed for continuous use, they’re more expensive than domestic machines.

The global key Commercial Laundry Machine manufacturers include Alliance Laundry System, Whirlpool, Miele, Electrolux Professional, Herbert Kannegiesser GmbH, Jensen Group, Pellerin Milnor Corporation, LG Commercial, Girbau, Dexter Laundry, Jiangsu Sea-Lion Machinery, ONNERA Group, Shanghai Sailstar Machinery etc. In terms of revenue, the global largest three manufacturers occupy a share nearly 40%. Europe is the largest market, and has a share about 32%, followed by North America and Asia Pacific with share 31% and 26%, separately. In terms of product type, Washers is the largest segment, occupied for a share of 72%. In terms of application, Laundries has a
