A point of sale system, or POS system, is a tool that allows your hotel to accept payments. Today's POS systems consist of three basic components: Hardware: There are several distinct parts to POS hardware. A card terminal is required to accept credit card, debit card and mobile wallet payments. Other tools include receipt printers, cash drawers and scanners for scanning items with barcodes. Software: The software on your POS allows you to select items to charge from a database of items. Make sales,

view customer transaction history, manage inventory, and get analytics and reports through the POS platform. Payment Transfer: The POS will send money from the guest's account to the bank account linked to your hotel after each sale.
