Abstracts

The global Commercial Pool Cleaning Services market size is predicted to grow from US\$ 1816 million in 2025 to US\$ 2607 million in 2032; it is expected to grow at a CAGR of 5.2% from 2026 to 2032.

Commercial swimming pool cleaning services are professional, high-frequency, and high-standard cleaning services provided specifically for non-residential swimming pool operators such as hotels, resorts, fitness clubs, spas, schools, community clubs, water parks, and public leisure venues.

The demand for commercial pool cleaning services continues to grow, mainly driven by multiple factors, including the expansion of high-end hotels and resort real estate globally, the upgrading of health and leisure consumption leading to the dense layout of fitness and spa centers, increasingly strict hygiene regulations for public places in various countries, the rising demand for high-standard operation and maintenance of temporary swimming pools for large-scale events, and the tendency of owners to outsource professional services in order to avoid group health risks and brand reputation losses.
