The global Comprehensive Medical Escort Service market size is predicted to grow from US$ 9681 million in 2025 to US$ 22100 million in 2032; it is expected to grow at a CAGR of 12.8% from 2026 to 2032.

The comprehensive medical accompaniment service is an accompanying support for patients who need medical treatment, covering multiple service types from appointment registration, examination guidance, payment and medication to rehabilitation arrangements after discharge. This service is designed to help patients and their families smoothly complete various procedures in the hospital and reduce the burden of the medical process. The medical accompaniment service can be divided into basic accompaniment and advanced accompaniment according to needs. Advanced accompaniment is suitable for critically ill patients, the elderly and other patients with special needs. Accompaniers usually have a medical background to ensure professional support. The comprehensive medical accompaniment service brings convenience and peace of mind to patients and is an important part of the modern medical service system.

Comprehensive medical companion services play an increasingly important role in the modern medical system, especially in the context of an aging population and an increase in the number of patients with chronic diseases. Such services not only solve the tedious affairs encountered by patients during medical treatment, but also reduce the pressure on family members in terms of time and energy. For patients with limited mobility or lack of medical resources, comprehensive medical companion services provide professional and customized help, make up for the shortcomings of traditional medical services, and improve patients' medical experience and the efficiency of the use of medical resources. At the same time, the in-depth development of medical
