According to our LPI (LP Information) latest study, the global Concrete Dams market size was valued at US\$ 4105.6 million in 2023. With growing demand in downstream market, the Concrete Dams is forecast to a readjusted size of US\$ 4911.5 million by 2030 with a CAGR of 2.6% during review period.

The research report highlights the growth potential of the global Concrete Dams market. Concrete Dams are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Concrete Dams. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Concrete Dams market.

This report studies the Concrete Dams market. The key raw materials for concrete dams are concrete itself and steel reinforcement. Design of a concrete dam depends on the purpose of the dam and the configuration of the site where it will be built. The concrete gravity dam has weight as its strength. A cross section of this dam looks like a triangle, and the wide base is about three-fourths of the height of the dam. Water in the reservoir upstream of the dam pushes horizontally against the dam, and the weight of the gravity dam pushes downward to counteract the water pressure. The concrete buttress dam also uses its weight to resist the water force. However, it is narrower and has buttresses at the base or toe of the dam on the downstream side. These buttresses may be narrow walls extending out from the face of the dam, much like the 'flying buttresses' supporting cathedral walls or a single buttress rather like a short dam may

be built along the width of the toe of the dam.

China is the largest market with about 54% market share. The South Asian Subcontinent is follower, accounting for about 25% market share.

The key players are China Three Gorges Corporation, WAPDA, POWERCHINA, Kalehan Energy Generation, Salini Impregilo, Iran Water and Power Resources Development Co., Khatam-al-Anbiya (KAA), UJVNL, Sabir Co. etc. Top 3 companies occupied about 71% market share.
