According to our LPI (LP Information) latest study, the global Corporate Car-sharing market size was valued at US\$ million in 2023. With growing demand in downstream market, the Corporate Car-sharing is forecast to a readjusted size of US\$ million by 2030 with a CAGR of % during review period.

The research report highlights the growth potential of the global Corporate Car-sharing market. Corporate Car-sharing are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Corporate Car-sharing. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Corporate Car-sharing market.

Carsharing or car sharing or car clubs is a model of car rental where people rent cars for short periods of time, often by the hour.

The two-way car-sharing segment accounts for more than half of the market, and the trend is expected to continue during the forecast period. Though one-way mode involves higher rentals because of higher base charges, the segment is growing rapidly.
