According to our LPI (LP Information) latest study, the global Corporate Valuation Service market size was valued at US\$ million in 2023. With growing demand in downstream market, the Corporate Valuation Service is forecast to a readjusted size of US\$ million by 2030 with a CAGR of % during review period.

The research report highlights the growth potential of the global Corporate Valuation Service market. Corporate Valuation Service are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Corporate Valuation Service. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Corporate Valuation Service market.

Corporate valuation service refers to the process of determining the monetary value of a business entity. It involves assessing the present day value of a business, taking into consideration factors such as past and predicted future performance, earnings, debt obligations, cost of capital, assets and liabilities. A business valuation provides the basis for understanding a company's true financial position and helps owners/shareholders to take well-informed decisions involving buying, selling, transferring ownership interests, creating liquidity events or raising capital.

The corporate valuation services market is driven by several factors including increasing M&A activity globally, rising need for transparency in financial reporting, surge in PE/VC investments, and technological advancements in big data & AI space. However, lack of

standardization and harmonization in the valuation processes could hinder the market growth during the forecast period.

North America dominated the corporate valuation services market with the majority market share followed by Europe and APAC respectively. This can be attributed to presence of large number of valuation service providers in developed countries like U.S., UK, Germany, France, etc. Also, the high level of awareness about corporate valuation services coupled with favorable regulatory framework supports the regional market growth. On the other hand, developing markets like China, India, Brazil will observe significant growth rate due to improving economic conditions and regulatory mandates towards IFRS convergence.
