## Abstracts

According to this study, the global Cosmetic Procedures market size will reach US\$ 12880 million by 2031.

According to Persistence Market Research, the global cosmetic procedures market is anticipated to witness significant market valuation and a robust growth rate during the period of assessment 2017-2025. This growth is pushed by the rising trend of medical tourism, higher adoption of cosmetic procedures especially in the emerging economies and rising prevalence of skin disorders that offer lucrative opportunities to adopt various laser surgical treatments. Moreover, innovations in the medical field are growing, new technological developments have changed the face of the industry, with more people relying on advanced procedures to treat disorders. This has accelerated the image of various cosmetic procedures in the minds of people which in turn has driven the growth of the global cosmetic procedures market.

The growing hyaluronic acid and botulinum toxin categories in the injectables sub-segment are major growth propellers of this sub-segment. Facial rejuvenation sub-segment is pushed due to growing non-surgical skin tightening, chemical peel, photorejuvenation and laser skin resurfacing sub-categories during the forecast period 2017-2025.
