## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Lotion spray is a type of spray, a lotion specially designed for 'lazy people'. Toner spray, simply put, is to spray the lotion with extremely fine water particles through the high-pressure system, so that the tiny droplets of the lotion float in the air, thus forming a white mist, similar to the effect of natural fog. Make-up water is generally a transparent liquid, which can remove dirt and oily secretions on the skin, keep the skin stratum corneum with moderate moisture, and have the functions of softening the skin and preventing rough skin.
