A sheet face mask is pre-cut to suit the shape of the face and soaked in nutritional packed serum, emulsions, or lotions, which can be applied directly on the face and taken off easily. These sheet face masks are different from other face masks such as paste type, and they are individually packed and generally used once, which increases their convenience to use. Cotton face mask substrate is a two structured sheet which has a coating or layer of foil made up of microfibers that allow the base serum to absorb pollution & dirt from the skin and moisturizes it simultaneously. Cotton face mask has a soft texture and is porous, which does not impact the skin's natural perspiration process.
