**The report requires updating with new data and is sent in 48 hours after order is placed.**

The global Cristobalite market size is predicted to grow from US$ 122 million in 2025 to US$ 161 million in 2031; it is expected to grow at a CAGR of 4.7% from 2025 to 2031.

Cristobalite is a high-temperature polymorph of silica. Since the natural resources of cristobalite are not sufficient for industrial use, it has to be synthetised by the conversion of quartz in a rotary kiln at high temperature (>1500°C) with the assistance of a catalyst.

Global 5 largest manufacturers of Cristobalite are SCR-Sibelco, Quarzwerke, Hoben International, Guangxi Weisidun and Silmer, which make up about 82%. Among them, SCR-Sibelco is the leader with about 55% market share.

Europe is the largest market, with a share about 54%, followed by North America and Asia Pacific, with share about 10% and 30%. In terms of product type, Sand Form occupy the largest share of the total market, about 58%. And in terms of product application, the largest application is Paints & Coatings, followed by Engineered Stone.
