CRM implementation services are the more traditional type of project, in which sales, marketing, customer service and digital commerce processes are improved. A CRM implementation service (hereafter referred to as CRM) strategizes, designs, integrates and deploys software with minimal integration or extensions within any of the four CRM domains: Sales — Solutions that support field sales, telesales, retail sales, Web sales and technology-enabled buying, Marketing — Solutions that support customer segmentation, marketing analysis, campaign management, marketing process automation and other marketing functions, Customer service and support — Solutions that support customer service and support processes, including consulting, technology implementation and solution deployment, but excluding the outsourcing of call centers and customer service centers, Digital commerce — Solutions that support e-commerce storefronts, product catalogs, personalization, mobile commerce and social commerce.
