The D-handle jigsaw is a common power tool widely used in the woodworking, metalworking and renovation industries. This design makes operation more flexible when more complex or fine cuts are required, such as cutting curves or irregular contours. The jigsaw uses a saw blade that reciprocates up and down to cut materials, and is suitable for cutting wood, plastic, metal and even ceramics. The D-Handle Jigsaw is one of the multi-functional tools commonly used by professional craftsmen and DIY enthusiasts because of its compact structure and easy operation, especially suitable for long-term vertical or horizontal cutting work.
