Dedicated contract carriage service is a type of transportation service where a shipper enters into a contract with a carrier to transport goods exclusively for that shipper. This arrangement is different from traditional truckload or less-than-truckload services, where carriers serve multiple shippers and may transport goods for various customers on the same vehicle. Dedicated contract carriage services are commonly used by companies in various industries, including manufacturing, retail, food and beverage, and pharmaceuticals, where consistent, reliable transportation is critical. Some of the advantages of dedicated contract carriage include reduced transportation costs, improved service levels, and the ability to focus on core business activities without worrying about transportation logistics.

The global Dedicated Contract Carriage Service market size is projected to grow from US\$ million in 2024 to US\$ million in 2030; it is expected to grow at a CAGR of %from 2024 to 2030.
