A Digital Door Viewer for Home is a smart door-mounted device designed to replace traditional peepholes, allowing users to see outside without approaching the door. Equipped with cameras, display screens, and sensors, it typically offers real-time video, wide-angle view, night vision, two-way audio communication, and mobile alerts. Many models integrate with smart home systems, enhancing security and convenience. Beyond simply showing visitors, digital door viewers can record visitor history, support remote access, and offer cloud storage for review at any time. With easy installation and intuitive operation, they are suitable for apartments, villas, and offices, effectively improving theft prevention and visitor management. The growing adoption of smart homes and increasing security awareness continue to drive their use in residential security applications.
