Disposable bouffant caps are also known as nurse caps or surgical caps. A bouffant cap is a disposable cap manufactured from non-woven 100% polypropylene material with soft thread elastic bands to keep the cap fit, comfortable and adjustable.

They have medical-grade finish quality, consisting of features like sweat absorption and shrink-resistance. In addition, disposable bouffant caps are beneficial in hospitals, clinics and diagnostic centres for doctors, and nurses during surgery and health checkup to protect the patient from any bacteria or viral infections. To avoid any surgical site infections during the surgeries, the Association of periOperative Registered Nurses (AORN) has recommended that all medical members should compulsorily wear bouffant caps during surgeries.
