Abstracts

The global Dog Backpack Carrier for Travel market size is predicted to grow from US\$ 417 million in 2025 to US\$ 631 million in 2032; it is expected to grow at a CAGR of 6.0% from 2026 to 2032.

In 2025, global Dog Backpack Carrier for Travel production reached approximately 6,500 K units, with an average global market price of around 65.5 USD/unit.

A Dog Backpack Carrier for Travel is a portable, wearable pet-carrying bag designed for safely and comfortably transporting small-to-medium dogs during outdoor activities, short trips, public transit, and travel; it features breathable mesh, padded straps, secure fastenings, and pet-friendly ergonomics to reduce stress for both dogs and owners while enabling hands-free mobility.

The average single-line production capacity of Dog Backpack Carrier for Travel is 140 K units, the average gross profit margin was 53.8%.

The industry chain consists of upstream raw material suppliers providing fabrics, mesh, zippers, buckles, foam, and threads; midstream manufacturers and OEM/ODM factories that cut, sew, assemble, and inspect finished carriers; and downstream channels including e-commerce platforms, pet specialty stores, outdoor retailers, supermarkets, and cross-border exporters that distribute products to global individual consumers and commercial buyers.

The cost structure is weighted as follows: raw materials account for about 50% (fabrics, hardware, linings), labor and manufacturing about 25% (cutting, sewing, assembly), logistics and warehousing about 10%, packaging and labeling about 8%, and design,

management, and miscellaneous expenses about 7%, with material and labor costs being the most influential factors in total production cost.

Strong demand is driven by rising pet ownership, pet-humanized consumption, and growth in pet-friendly travel and outdoor lifestyles, creating business opportunities in functional innovation (waterproof, collapsible, airline-compliant), premium and eco-friendly materials, cross-border e-commerce, private labeling, and scene-specific products for hiking, urban commuting, and air travel.
