The global Edible Chantilly Cream market size is predicted to grow from US$ 3544 million in 2025 to US$ 4285 million in 2031; it is expected to grow at a CAGR of 3.2% from 2025 to 2031.

Chantilly cream is cream that is whipped by a whisk or mixer until it is light and fluffy, or by the expansion of dissolved gas, forming a colloid. It is often sweetened and sometimes flavored with vanilla.

Significant growth in the global food and beverage industry is one of the key factors creating a positive market outlook. Moreover, rising consumption of cupcakes, ice cream, sundaes, hot chocolate, milkshakes, and puddings, especially among millennials, is driving market growth. In line with this, the presence of premium bakeries and confectionary boutiques offering customized and intricately designed cakes and pastries also contributes to the growth of the market. Whipping cream is widely used as a decorative ingredient in various gourmet dishes, themed desserts and signature confectionaries. Moreover, various product innovations such as the launch of sugar-free, organic, and vegan whipped cream in novel flavors such as rose, cinnamon, and mango are also favoring the growth of the market.
