Education is an important part of life. The amount and type of education that individuals receive is a major influence on both the types of jobs they are able to hold and their earnings. Lifelong learning is important in acquiring new knowledge and upgrading one's skills, particularly in this age of rapid technological and economic changes. The educational services industry includes a variety of institutions that offer academic education, career and technical instruction, and other education and training to millions of students each year.

Against the background of global trends, there are serious changes in the educational sphere. The transition to the knowledge society and the growth of demand for higher education leads to new requirements for universities. The erosion of the national
