Abstracts

The global Electric Manual Therapy Table market size is predicted to grow from US\$ 548 million in 2025 to US\$ 771 million in 2032; it is expected to grow at a CAGR of 5.0% from 2026 to 2032.

Electric Manual Therapy Table refers to a professional electrically powered treatment table designed to support manual therapy, spinal mobilisation, manipulation, osteopathic treatment, chiropractic adjustment and related musculoskeletal rehabilitation procedures. The product typically combines electric height adjustment with a segmented tabletop, adjustable head, trunk, pelvic or lower-limb sections, and optional powered positioning, drop, flexion-distraction or multidirectional mobilisation functions. Product configurations range from relatively simple one-to-two-section electric tables to three-section, four-to-six-section and seven-or-more-section systems, while electric drive configurations include single-motor, dual-motor and multi-motor designs. The primary end-use settings are hospital rehabilitation and musculoskeletal departments, independent physiotherapy clinics, chiropractic clinics, osteopathy clinics and sports rehabilitation centers.

Key Findings

Global Electric Manual Therapy Table shipments are estimated at approximately 157.3 thousand units in 2025 and 163.6 thousand units in 2026

Global weighted average selling price is estimated to increase from about US\$3,560 per unit in 2025 to about US\$3,600 in 2026

Three-section and four-to-six-section configurations represent the core product

architecture across mainstream professional manual therapy table portfolios

Demand is concentrated in hospital rehabilitation, musculoskeletal care, physiotherapy, chiropractic, osteopathy and sports rehabilitation settings

Market Trends

The Electric Manual Therapy Table industry is moving from basic electric height-adjustable treatment surfaces toward more integrated positioning platforms that support both therapist ergonomics and increasingly specialized musculoskeletal procedures. Product development is concentrated on multi-section tabletop structures, faster and quieter actuators, foot-operated controls, higher lifting stability, powered center or trunk sections, programmable or synchronized movement and integrated drop or flexion-distraction functionality. Lojer's Manuthera uses synchronized motors and multidirectional traction, flexion and rotational movement, while Everyway's CA130 combines an eight-section layout with multiple motors and adjustable tension-drop sections; Cardon and Xiangyu similarly emphasize powered height adjustment and improved patient positioning. The longer-term direction is therefore not simply "more electric tables," but greater functional differentiation: premium systems increasingly integrate several positioning mechanisms into a single platform, while mainstream models focus on reliable electric lifting, therapist access, patient comfort, infection-control-friendly surfaces and lower physical strain during repetitive manual treatment.

Market Dynamics

Drivers

Demand growth is supported by the expansion of physiotherapy and musculoskeletal rehabilitation services, growth in practitioner populations, aging patients requiring mobility and pain management, and increasing recognition of therapist ergonomics. World Physiotherapy reported approximately 2.14 million physiotherapists globally in its 2024 census, indicating a broad professional user base for treatment and rehabilitation equipment. In the United States, the Bureau of Labor Statistics projects physical therapist employment to increase 11% between 2024 and 2034 and chiropractor employment to increase 10%, while most chiropractors work in dedicated solo or group practices. Electrically adjustable tables address a practical operational requirement within these settings by reducing repeated manual lifting and allowing faster patient repositioning. Demand is also shifting from conventional flat treatment tables toward equipment that supports spinal mobilisation, manipulation, osteopathic adjustment and

other targeted procedures, expanding the value of each installed treatment position.

Restraints

The principal restraint is the relatively long replacement cycle of professional treatment tables. High-quality systems are durable capital equipment rather than frequently replaced consumables: Plinth Medical reports an average lifespan of approximately 16 years for its Model 515 manipulation couch, illustrating the slow natural replacement rate achievable in mature installations. Initial acquisition cost also rises rapidly with functionality. Basic electric models compete with hydraulic and manually adjustable alternatives, while advanced drop, multi-motor and motorized flexion-distraction systems can require substantially higher capital expenditure; for example, current premium U.S. chiropractic tables can be priced at several thousand dollars per unit. For smaller clinics, this creates a clear trade-off between clinical functionality and equipment utilization. In emerging markets, procurement budgets, reimbursement conditions and uneven availability of trained manual therapy practitioners can further delay replacement or adoption of premium systems.

Opportunities

The strongest opportunities are concentrated in the conversion of manual or hydraulic treatment positions to electric systems, the expansion of multi-disciplinary musculoskeletal clinics, and the adoption of higher-function tables in emerging rehabilitation markets. Multi-section electric tables can serve several treatment techniques within the same room, making them attractive where providers seek to increase room utilization without adding multiple pieces of equipment. China provides a particularly important expansion pathway because electric multi-position tables are increasingly designed around rehabilitation, massage, musculoskeletal and manual-treatment workflows rather than only Western chiropractic practice. Xiangyu's current multi-position medical treatment table, for example, uses powered height adjustment and is explicitly positioned for manual treatment-related patient positioning. Further opportunities exist in sports medicine, premium osteopathy and chiropractic clinics, outpatient rehabilitation networks and replacement demand for older fixed-height tables. Suppliers that combine mid-range pricing with modular motor, section and control options are positioned to address a broader range of procurement budgets.

Challenges

The market remains technically fragmented because “manual therapy table,” “osteopathy table,” “chiropractic table,” “manipulation couch” and “multi-position

treatment table” are used differently across countries and clinical disciplines. This creates challenges in product comparison, tender specifications and international competitive benchmarking. Functional requirements also vary substantially: some customers require only electric height adjustment, while others demand drop mechanisms, flexion-distraction, powered trunk positioning or multidirectional mobilisation. Manufacturers therefore face higher SKU complexity and must balance customization with manufacturing efficiency. Safety, stability, lifting capacity, electrical compliance and long-term actuator reliability are critical because these devices are repeatedly loaded during hands-on procedures; Plinth Medical, for example, specifies medical-device, electrical and load-testing requirements for its professional manipulation couch. At the commercial level, global competition is intensified by large differences between premium North American and European systems and lower-cost Asian manufacturing, making differentiation through ergonomics, durability, clinical functionality, service and distributor support increasingly important.

Industry Chain Analysis

The upstream chain of Electric Manual Therapy Table manufacturing consists primarily of structural steel and fabricated metal components, electric linear actuators and motors, control switches and foot controls, gas springs, bearings and hinges, casters, high-density foam, medical-grade upholstery, electrical assemblies and specialized components such as drop mechanisms. Midstream manufacturers integrate frame fabrication, welding, surface finishing, cushioning and upholstery, electrical drive assembly, segmented tabletop engineering, safety design, testing and final product configuration. The most important value-creation points are structural rigidity under practitioner-applied force, stable and quiet lifting, precise movement of treatment sections, patient accessibility and therapist ergonomics. Higher-end products generate additional value through synchronized motors, multi-axis positioning, drop modules and motorized flexion-distraction. Lojer, Cardon, Everyway and Haobro illustrate different levels of this integration, ranging from conventional electric hi-lo platforms to multi-motor and multi-section professional systems. Downstream demand is generated by hospitals, rehabilitation facilities and specialized outpatient clinics. Distribution typically combines direct institutional sales with specialized medical-equipment distributors, while installation, training, spare parts and maintenance support become increasingly important for premium tables. The cost structure is therefore influenced not only by raw materials but also by actuator quality, precision fabrication, certification, upholstery durability, customization and after-sales support; higher-margin positions are generally associated with differentiated clinical functionality and strong professional-channel brands rather than basic electric lifting alone.

Segment Insights

By product type, the market is most effectively segmented according to the number of independent tabletop sections: one-to-two-section, three-section, four-to-six-section and seven-or-more-section Electric Manual Therapy Tables. This parameter is widely identifiable across commercial products and provides a clearer structural distinction than classifications based on individual therapy techniques. Three-section products provide a balance between price, therapist access and positioning flexibility and are common in general manual physiotherapy applications, while four-to-six-section configurations offer greater control of trunk and limb positioning. Seven-or-more-section products address more specialized manipulation and chiropractic workflows in which the head, thoracic, abdominal, pelvic or lower-limb areas may require independent adjustment. Everyway's CA130 is an eight-section electric chiropractic platform, while Haobro markets multi-position models with different section configurations for manual and physical treatment. A second useful parameter is electric drive configuration. Single-motor systems dominate simpler height-adjustable architectures, dual-motor designs add powered positioning of a major treatment segment, and three-or-more-motor designs are concentrated in highly adjustable premium products. The growth opportunity therefore lies less in adding additional categories than in increasing functionality and value per table within established section architectures.

Downstream Market Opportunities

Downstream demand is diversified across hospital rehabilitation departments, hospital musculoskeletal departments, independent physiotherapy clinics, chiropractic clinics, osteopathy clinics and sports rehabilitation centers. Hospital buyers typically prioritize safety, durability, multi-user ergonomics and compatibility with different patient conditions, while independent professional clinics place greater emphasis on treatment-specific positioning, room efficiency and practitioner workflow. Chiropractic clinics represent a particularly specialized market for electric elevation, drop and flexion-distraction functions; osteopathy and manual physiotherapy settings generally require easier access around the patient and flexible head, trunk and lower-limb positioning. Sports rehabilitation centers represent a smaller but higher-specification opportunity because equipment may be used for manual mobilisation, adjustment, soft-tissue treatment and recovery within the same facility. As outpatient musculoskeletal care expands, the most attractive product opportunity is the versatile professional table that can support multiple treatment methods without becoming excessively complex or costly.

Regional Insights

North America remains one of the most mature high-value markets for Electric Manual Therapy Tables because of the established chiropractic, physical therapy and multidisciplinary musculoskeletal clinic structure. U.S. labor data indicate continued expansion in both physical therapy and chiropractic employment, supporting gradual growth in professional treatment positions and replacement demand. The region has a strong premium product segment centered on electric elevation, pneumatic or mechanical drop systems and motorized flexion-distraction. Europe is characterized by a broad manufacturing base and strong demand for physiotherapy, osteopathy and multidisciplinary manual treatment equipment, with particular emphasis on ergonomic design, long service life, safety and multi-position adjustment. Lojer's Finnish-made Manuthera and Plinth Medical's UK-made manipulation couch illustrate this professional equipment positioning. Asia-Pacific offers greater structural expansion potential. China combines a large hospital system with rapidly developing rehabilitation and traditional manual-treatment infrastructure; the National Health Commission reported 38,710 hospitals in China at the end of 2024 and continued growth in traditional Chinese medical services. China, South Korea and Taiwan also have increasingly capable local manufacturers, while Japan, India and Australia represent differentiated professional demand and manufacturing niches.

Competitive Landscape Analysis

The Electric Manual Therapy Table market is fragmented, with competition occurring across premium clinical systems, specialized chiropractic equipment, mainstream electric physiotherapy tables and cost-competitive multi-position products. North American companies such as Pivotal Health Solutions, Hill Laboratories, Lloyd Table, Leander, Cardon and other specialist manufacturers emphasize chiropractic adjustment, electric elevation, drop and flexion-distraction capabilities. European manufacturers including Lojer, CHINESPORT, ECOPOSTURAL, Weelko, HABYS, Fysiotech, Stolzenberg, SEERS Medical and Plinth Medical compete through treatment ergonomics, multi-section engineering, durability and broad physiotherapy or osteopathy positioning. Asian suppliers increasingly compete not only on cost but also on product functionality: Everyway's multi-motor eight-section chiropractic table, Haobro's multi-position manual therapy products and Xiangyu's electrically adjustable clinical table demonstrate the convergence of local manufacturing with professional rehabilitation requirements. Competitive advantage therefore increasingly depends on a combination of clinical positioning capability, actuator performance, structural stability, professional-channel reputation, regulatory compliance and after-sales service.

Premium suppliers can sustain differentiation through specialized movement systems and long product life, while Chinese and other Asian manufacturers are widening the competitive field through broader configurations and more accessible pricing, creating a market in which both technology specialization and manufacturing efficiency are important.

Report Scope

LP Information, Inc. (LPI) 's newest research report, the "Electric Manual Therapy Table Industry Forecast" looks at past sales and reviews total world Electric Manual Therapy Table sales in 2025, providing a comprehensive analysis by region and market sector of projected Electric Manual Therapy Table sales for 2026 through 2032. With Electric Manual Therapy Table sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the world Electric Manual Therapy Table industry.

This Insight Report provides a comprehensive analysis of the global Electric Manual Therapy Table landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on Electric Manual Therapy Table portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global Electric Manual Therapy Table market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Electric Manual Therapy Table and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Electric Manual Therapy Table.

This report presents a comprehensive overview, market shares, and growth opportunities of Electric Manual Therapy Table market by product type, application, key manufacturers and key regions and countries.

Market Segmentation

Segmentation by Type:

One to Two Section Manual Therapy Tables

Three Section Manual Therapy Tables

Four to Six Section Manual Therapy Tables

Seven or More Section Manual Therapy Tables

Other

Segmentation by Electric Drive Configuration:

Single Motor Electric Tables

Dual Motor Electric Tables

Three or More Motor Electric Tables

Other

Segmentation by Application:

Hospital Rehabilitation Departments

Hospital Orthopedic Departments

Hospital Traditional Chinese Medicine Departments

Independent Physiotherapy Clinics

Chiropractic Clinics

Osteopathy Clinics

Sports Rehabilitation Centers

Other

This report also splits the market by region:

Americas

United States

Canada

Mexico

Brazil

APAC

China

Japan

Korea

Southeast Asia

India

Australia

Europe

Germany

France

UK

Italy

Russia

Middle East & Africa

Egypt

South Africa

Israel

Turkey

GCC Countries

The below companies that are profiled have been selected based on inputs gathered from primary experts and analysing the company's coverage, product portfolio, its market penetration.

Pivotal Health Solutions

Hill Laboratories Company

Lloyd Table Company

Leander, LLC

Foundational Williams

Rock Table Co.

Key Questions Addressed in this Report

What is the 10-year outlook for the global Electric Manual Therapy Table market?

What factors are driving Electric Manual Therapy Table market growth, globally

and by region?

Which technologies are poised for the fastest growth by market and region?

How do Electric Manual Therapy Table market opportunities vary by end market size?

How does Electric Manual Therapy Table break out by Type, by Application?

Contents

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

- 2.1 World Market Overview
 - 2.1.1 Global Electric Manual Therapy Table Annual Sales 2021-2032
 - 2.1.2 World Current & Future Analysis for Electric Manual Therapy Table by Geographic Region, 2021, 2025 & 2032
 - 2.1.3 World Current & Future Analysis for Electric Manual Therapy Table by Country/Region, 2021, 2025 & 2032
- 2.2 Electric Manual Therapy Table Segment by Type
 - 2.2.1 One to Two Section Manual Therapy Tables
 - 2.2.2 Three Section Manual Therapy Tables
 - 2.2.3 Four to Six Section Manual Therapy Tables
 - 2.2.4 Seven or More Section Manual Therapy Tables
 - 2.2.5 Other
 - 2.2.6 Electric Manual Therapy Table Sales by Type
 - 2.2.6.1 Global Electric Manual Therapy Table Sales Market Share by Type (2021-2026)
 - 2.2.6.2 Global Electric Manual Therapy Table Revenue and Market Share by Type (2021-2026)
 - 2.2.6.3 Global Electric Manual Therapy Table Sale Price by Type (2021-2026)
- 2.3 Electric Manual Therapy Table Segment by Electric Drive Configuration
 - 2.3.1 Single Motor Electric Tables
 - 2.3.2 Dual Motor Electric Tables
 - 2.3.3 Three or More Motor Electric Tables
 - 2.3.4 Other
 - 2.3.5 Electric Manual Therapy Table Sales by Electric Drive Configuration

2.3.5.1 Global Electric Manual Therapy Table Sales Market Share by Electric Drive Configuration (2021-2026)

2.3.5.2 Global Electric Manual Therapy Table Revenue and Market Share by Electric Drive Configuration (2021-2026)

2.3.5.3 Global Electric Manual Therapy Table Sale Price by Electric Drive Configuration (2021-2026)

2.4 Electric Manual Therapy Table Segment by Application

2.4.1 Hospital Rehabilitation Departments

2.4.2 Hospital Orthopedic Departments

2.4.3 Hospital Traditional Chinese Medicine Departments

2.4.4 Independent Physiotherapy Clinics

2.4.5 Chiropractic Clinics

2.4.6 Osteopathy Clinics

2.4.7 Sports Rehabilitation Centers

2.4.8 Other

2.4.9 Electric Manual Therapy Table Sales by Application

2.4.9.1 Global Electric Manual Therapy Table Sale Market Share by Application (2021-2026)

2.4.9.2 Global Electric Manual Therapy Table Revenue and Market Share by Application (2021-2026)

2.4.9.3 Global Electric Manual Therapy Table Sale Price by Application (2021-2026)

3 GLOBAL BY COMPANY

3.1 Global Electric Manual Therapy Table Breakdown Data by Company

3.1.1 Global Electric Manual Therapy Table Annual Sales by Company (2021-2026)

3.1.2 Global Electric Manual Therapy Table Sales Market Share by Company (2021-2026)

3.2 Global Electric Manual Therapy Table Annual Revenue by Company (2021-2026)

3.2.1 Global Electric Manual Therapy Table Revenue by Company (2021-2026)

3.2.2 Global Electric Manual Therapy Table Revenue Market Share by Company (2021-2026)

3.3 Global Electric Manual Therapy Table Sale Price by Company

3.4 Key Manufacturers Electric Manual Therapy Table Producing Area Distribution, Sales Area, Product Type

3.4.1 Key Manufacturers Electric Manual Therapy Table Product Location Distribution

3.4.2 Players Electric Manual Therapy Table Products Offered

3.5 Market Concentration Rate Analysis

3.5.1 Competition Landscape Analysis

- 3.5.2 Concentration Ratio (CR3, CR5 and CR10) & (2024-2026)
- 3.6 New Products and Potential Entrants
- 3.7 Market M&A Activity & Strategy

4 WORLD HISTORIC REVIEW FOR ELECTRIC MANUAL THERAPY TABLE BY GEOGRAPHIC REGION

- 4.1 World Historic Electric Manual Therapy Table Market Size by Geographic Region (2021-2026)
 - 4.1.1 Global Electric Manual Therapy Table Annual Sales by Geographic Region (2021-2026)
 - 4.1.2 Global Electric Manual Therapy Table Annual Revenue by Geographic Region (2021-2026)
- 4.2 World Historic Electric Manual Therapy Table Market Size by Country/Region (2021-2026)
 - 4.2.1 Global Electric Manual Therapy Table Annual Sales by Country/Region (2021-2026)
 - 4.2.2 Global Electric Manual Therapy Table Annual Revenue by Country/Region (2021-2026)
- 4.3 Americas Electric Manual Therapy Table Sales Growth
- 4.4 APAC Electric Manual Therapy Table Sales Growth
- 4.5 Europe Electric Manual Therapy Table Sales Growth
- 4.6 Middle East & Africa Electric Manual Therapy Table Sales Growth

5 AMERICAS

- 5.1 Americas Electric Manual Therapy Table Sales by Country
 - 5.1.1 Americas Electric Manual Therapy Table Sales by Country (2021-2026)
 - 5.1.2 Americas Electric Manual Therapy Table Revenue by Country (2021-2026)
- 5.2 Americas Electric Manual Therapy Table Sales by Type (2021-2026)
- 5.3 Americas Electric Manual Therapy Table Sales by Application (2021-2026)
- 5.4 United States
- 5.5 Canada
- 5.6 Mexico
- 5.7 Brazil

6 APAC

- 6.1 APAC Electric Manual Therapy Table Sales by Region

- 6.1.1 APAC Electric Manual Therapy Table Sales by Region (2021-2026)
- 6.1.2 APAC Electric Manual Therapy Table Revenue by Region (2021-2026)
- 6.2 APAC Electric Manual Therapy Table Sales by Type (2021-2026)
- 6.3 APAC Electric Manual Therapy Table Sales by Application (2021-2026)
- 6.4 China
- 6.5 Japan
- 6.6 South Korea
- 6.7 Southeast Asia
- 6.8 India
- 6.9 Australia
- 6.10 China Taiwan

7 EUROPE

- 7.1 Europe Electric Manual Therapy Table by Country
 - 7.1.1 Europe Electric Manual Therapy Table Sales by Country (2021-2026)
 - 7.1.2 Europe Electric Manual Therapy Table Revenue by Country (2021-2026)
- 7.2 Europe Electric Manual Therapy Table Sales by Type (2021-2026)
- 7.3 Europe Electric Manual Therapy Table Sales by Application (2021-2026)
- 7.4 Germany
- 7.5 France
- 7.6 UK
- 7.7 Italy
- 7.8 Russia

8 MIDDLE EAST & AFRICA

- 8.1 Middle East & Africa Electric Manual Therapy Table by Country
 - 8.1.1 Middle East & Africa Electric Manual Therapy Table Sales by Country (2021-2026)
 - 8.1.2 Middle East & Africa Electric Manual Therapy Table Revenue by Country (2021-2026)
- 8.2 Middle East & Africa Electric Manual Therapy Table Sales by Type (2021-2026)
- 8.3 Middle East & Africa Electric Manual Therapy Table Sales by Application (2021-2026)
- 8.4 Egypt
- 8.5 South Africa
- 8.6 Israel
- 8.7 Turkey

8.8 GCC Countries

9 MARKET DRIVERS, CHALLENGES AND TRENDS

9.1 Market Drivers & Growth Opportunities

9.2 Market Challenges & Risks

9.3 Industry Trends

10 MANUFACTURING COST STRUCTURE ANALYSIS

10.1 Raw Material and Suppliers

10.2 Manufacturing Cost Structure Analysis of Electric Manual Therapy Table

10.3 Manufacturing Process Analysis of Electric Manual Therapy Table

10.4 Industry Chain Structure of Electric Manual Therapy Table

11 MARKETING, DISTRIBUTORS AND CUSTOMER

11.1 Sales Channel

11.1.1 Direct Channels

11.1.2 Indirect Channels

11.2 Electric Manual Therapy Table Distributors

11.3 Electric Manual Therapy Table Customer

12 WORLD FORECAST REVIEW FOR ELECTRIC MANUAL THERAPY TABLE BY GEOGRAPHIC REGION

12.1 Global Electric Manual Therapy Table Market Size Forecast by Region

12.1.1 Global Electric Manual Therapy Table Forecast by Region (2027-2032)

12.1.2 Global Electric Manual Therapy Table Annual Revenue Forecast by Region (2027-2032)

12.2 Americas Forecast by Country (2027-2032)

12.3 APAC Forecast by Region (2027-2032)

12.4 Europe Forecast by Country (2027-2032)

12.5 Middle East & Africa Forecast by Country (2027-2032)

12.6 Global Electric Manual Therapy Table Forecast by Type (2027-2032)

12.7 Global Electric Manual Therapy Table Forecast by Application (2027-2032)

13 KEY PLAYERS ANALYSIS

13.1 Pivotal Health Solutions

13.1.1 Pivotal Health Solutions Company Information

13.1.2 Pivotal Health Solutions Electric Manual Therapy Table Product Portfolios and Specifications

13.1.3 Pivotal Health Solutions Electric Manual Therapy Table Sales, Revenue, Price and Gross Margin (2021-2026)

13.1.4 Pivotal Health Solutions Main Business Overview

13.1.5 Pivotal Health Solutions Latest Developments

13.2 Hill Laboratories Company

13.2.1 Hill Laboratories Company Company Information

13.2.2 Hill Laboratories Company Electric Manual Therapy Table Product Portfolios and Specifications

13.2.3 Hill Laboratories Company Electric Manual Therapy Table Sales, Revenue, Price and Gross Margin (2021-2026)

13.2.4 Hill Laboratories Company Main Business Overview

13.2.5 Hill Laboratories Company Latest Developments

13.3 Lloyd Table Company

13.3.1 Lloyd Table Company Company Information

13.3.2 Lloyd Table Company Electric Manual Therapy Table Product Portfolios and Specifications

13.3.3 Lloyd Table Company Electric Manual Therapy Table Sales, Revenue, Price and Gross Margin (2021-2026)

13.3.4 Lloyd Table Company Main Business Overview

13.3.5 Lloyd Table Company Latest Developments

13.4 Leander, LLC

13.4.1 Leander, LLC Company Information

13.4.2 Leander, LLC Electric Manual Therapy Table Product Portfolios and Specifications

13.4.3 Leander, LLC Electric Manual Therapy Table Sales, Revenue, Price and Gross Margin (2021-2026)

13.4.4 Leander, LLC Main Business Overview

13.4.5 Leander, LLC Latest Developments

13.5 Foundational Williams

13.5.1 Foundational Williams Company Information

13.5.2 Foundational Williams Electric Manual Therapy Table Product Portfolios and Specifications

13.5.3 Foundational Williams Electric Manual Therapy Table Sales, Revenue, Price and Gross Margin (2021-2026)

13.5.4 Foundational Williams Main Business Overview

- 13.5.5 Foundational Williams Latest Developments
- 13.6 Rock Table Co.
 - 13.6.1 Rock Table Co. Company Information
 - 13.6.2 Rock Table Co. Electric Manual Therapy Table Product Portfolios and Specifications
 - 13.6.3 Rock Table Co. Electric Manual Therapy Table Sales, Revenue, Price and Gross Margin (2021-2026)
 - 13.6.4 Rock Table Co. Main Business Overview
 - 13.6.5 Rock Table Co. Latest Developments
- 13.7 Elite Chiropractic Tables
 - 13.7.1 Elite Chiropractic Tables Company Information
