An Electric Pet Doll refers to a type of doll or stuffed animal that incorporates electrical components or features to provide an interactive experience for pets, such as cats or dogs. These dolls are designed to move, make sounds, or respond to touch, providing stimulation and entertainment for pets. Electric pet dolls are often designed with realistic features, such as fur or clothing, to resemble real-life animals or objects that pets may be interested in. They are designed to promote mental and physical stimulation, alleviate boredom, and offer a form of entertainment for pets when their owners are not available to actively engage with them.

The global Electric Pet Doll market size is projected to grow from US\$ million in 2023 to US\$ million in 2030; it is expected to grow at a CAGR of % from 2024 to 2030.
