Abstracts

The global Electric Saws for Arborist market size is predicted to grow from US$ 298 million in 2025 to US$ 493 million in 2032; it is expected to grow at a CAGR of 7.4% from 2026 to 2032.

In 2025, global Electric Saws for Arborist sales reached approximately 647 thousand units, with an average global market price of around 471 dollars per unit. Electric Saws for Arborist refer to electrically powered cutting tools used by arborists and tree care professionals for pruning, trimming, cutting, and removing tree branches during arboricultural operations. These tools are typically powered either by rechargeable batteries or by an electric power source, and they are designed to provide faster cutting performance than manual pruning saws while being quieter, lighter, and lower-emission than gasoline chainsaws.

Electric saws for arborists represent a fast-growing segment of professional tree care tools, mainly used for pruning, branch removal, crown reduction, deadwood cutting, small tree dismantling, orchard maintenance, and urban forestry operations. Compared with manual pruning saws, electric saws provide higher cutting efficiency and reduce physical fatigue, making them suitable for repetitive and high-frequency arborist work. Compared with gasoline-powered chainsaws, they offer lower noise, easier starting, less vibration, simpler maintenance, and zero direct exhaust emissions, which makes them increasingly attractive in residential areas, parks, schools, hospitals, commercial landscapes, and municipal green spaces where noise and emission restrictions are becoming more important. The category includes battery-powered pruning saws, compact electric chainsaws, cordless pole saws, electric reciprocating saws used for pruning, and multi-tool pruning attachments. Demand is mainly supported by the professionalization of tree care services, rising urban greening investment, aging urban

tree populations, storm-damage cleanup, higher safety requirements, and the shift from gasoline equipment to cordless battery-powered tools. The upstream industry chain includes lithium-ion battery cells, battery management systems, brushless motors, electronic controllers, guide bars, saw chains, blades, gears, bearings, high-strength plastic housings, aluminum components, rubber grips, chargers, safety switches, packaging materials, and precision machining components. Battery capacity, motor efficiency, chain quality, thermal management, electronic protection systems, and lightweight materials are key factors that determine product performance and user acceptance. The midstream mainly consists of professional garden tool manufacturers, power tool companies, arborist equipment brands, OEM/ODM producers, and private-label suppliers. These companies compete through cutting speed, runtime, safety design, weight, balance, durability, battery platform compatibility, after-sales service, and brand reputation. Leading brands usually emphasize professional-grade battery platforms, brushless motor technology, ergonomic design, anti-kickback protection, tool-free chain adjustment, and compatibility with other outdoor power equipment. Downstream customers include professional arborists, tree service companies, landscaping contractors, municipal maintenance departments, utility vegetation management teams, orchard growers, forestry workers, facility management companies, rental companies, garden centers, hardware retailers, online platforms, and advanced DIY users. Among these groups, professional arborists and tree service companies have the highest requirements for reliability, safety, portability, and continuous operation, especially when tools are used for climbing, rope-access work, aerial lift operations, or work at height. In terms of future development, electric saws for arborists are expected to benefit from the broader electrification of outdoor power equipment. Improvements in battery energy density, fast charging, motor efficiency, and electronic control systems will allow electric saws to handle more demanding pruning and cutting tasks. Lightweight and compact designs will become increasingly important because arborists need tools that can be carried safely during climbing and operated with good balance in confined tree canopies. Safety features such as chain brakes, dual-switch systems, anti-kickback structures, automatic shutoff, overload protection, and improved grip design will also become major product differentiators. In addition, shared battery platforms will encourage users to adopt electric saws together with electric pruning shears, blowers, hedge trimmers, and pole tools, creating stronger brand loyalty and higher replacement demand. The market still faces challenges such as higher upfront cost, limited runtime under heavy load, battery replacement cost, and competition from manual saws and gasoline chainsaws in heavy-duty applications. However, as regulations, customer preferences, and professional work practices increasingly favor quieter, cleaner, and easier-to-maintain tools, electric saws for arborists are expected to expand steadily and become an essential complement to both

manual pruning saws and traditional chainsaws in modern arboricultural operations.

LP Information, Inc. (LPI) ' newest research report, the “Electric Saws for Arborist Industry Forecast” looks at past sales and reviews total world Electric Saws for Arborist sales in 2025, providing a comprehensive analysis by region and market sector of projected Electric Saws for Arborist sales for 2026 through 2032. With Electric Saws for Arborist sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US$ millions of the world Electric Saws for Arborist industry.

This Insight Report provides a comprehensive analysis of the global Electric Saws for Arborist landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on Electric Saws for Arborist portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms’ unique position in an accelerating global Electric Saws for Arborist market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Electric Saws for Arborist and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Electric Saws for Arborist.

This report presents a comprehensive overview, market shares, and growth opportunities of Electric Saws for Arborist market by product type, application, key manufacturers and key regions and countries.

Segmentation by Type:

Electric Chainsaws

Electric Pole Saws

Key Questions Addressed in this Report

What is the 10-year outlook for the global Electric Saws for Arborist market?

What factors are driving Electric Saws for Arborist market growth, globally and by region?

Which technologies are poised for the fastest growth by market and region?

How do Electric Saws for Arborist market opportunities vary by end market size?

How does Electric Saws for Arborist break out by Type, by Application?

Contents

1 SCOPE OF THE REPORT

1.1 Market Introduction
1.2 Years Considered
1.3 Research Objectives
1.4 Market Research Methodology
1.5 Research Process and Data Source
1.6 Economic Indicators
1.7 Currency Considered
1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

2.1 World Market Overview
  2.1.1 Global Electric Saws for Arborist Annual Sales 2021-2032
  2.1.2 World Current & Future Analysis for Electric Saws for Arborist by Geographic Region, 2021, 2025 & 2032
  2.1.3 World Current & Future Analysis for Electric Saws for Arborist by Country/Region, 2021, 2025 & 2032
2.2 Electric Saws for Arborist Segment by Type
  2.2.1 Electric Chainsaws
  2.2.2 Electric Pole Saws
  2.2.3 Other
  2.2.4 Electric Saws for Arborist Sales by Type
    2.2.4.1 Global Electric Saws for Arborist Sales Market Share by Type (2021-2026)
    2.2.4.2 Global Electric Saws for Arborist Revenue and Market Share by Type (2021-2026)
    2.2.4.3 Global Electric Saws for Arborist Sale Price by Type (2021-2026)
2.3 Electric Saws for Arborist Segment by Power Source
  2.3.1 Cordless
  2.3.2 Corded
  2.3.3 Electric Saws for Arborist Sales by Power Source
    2.3.3.1 Global Electric Saws for Arborist Sales Market Share by Power Source (2021-2026)
    2.3.3.2 Global Electric Saws for Arborist Revenue and Market Share by Power Source (2021-2026)
    2.3.3.3 Global Electric Saws for Arborist Sale Price by Power Source (2021-2026)

+357 96 030922
info@marketpublishers.com

2.4 Electric Saws for Arborist Segment by Application
2.4.1 Ground-based Pruning
2.4.2 Climbing Pruning
2.4.3 Electric Saws for Arborist Sales by Application
2.4.3.1 Global Electric Saws for Arborist Sale Market Share by Application (2021-2026)
2.4.3.2 Global Electric Saws for Arborist Revenue and Market Share by Application (2021-2026)
2.4.3.3 Global Electric Saws for Arborist Sale Price by Application (2021-2026)

3 GLOBAL BY COMPANY

3.1 Global Electric Saws for Arborist Breakdown Data by Company
3.1.1 Global Electric Saws for Arborist Annual Sales by Company (2021-2026)
3.1.2 Global Electric Saws for Arborist Sales Market Share by Company (2021-2026)
3.2 Global Electric Saws for Arborist Annual Revenue by Company (2021-2026)
3.2.1 Global Electric Saws for Arborist Revenue by Company (2021-2026)
3.2.2 Global Electric Saws for Arborist Revenue Market Share by Company (2021-2026)
3.3 Global Electric Saws for Arborist Sale Price by Company
3.4 Key Manufacturers Electric Saws for Arborist Producing Area Distribution, Sales Area, Product Type
3.4.1 Key Manufacturers Electric Saws for Arborist Product Location Distribution
3.4.2 Players Electric Saws for Arborist Products Offered
3.5 Market Concentration Rate Analysis
3.5.1 Competition Landscape Analysis
3.5.2 Concentration Ratio (CR3, CR5 and CR10) & (2024-2026)
3.6 New Products and Potential Entrants
3.7 Market M&A Activity & Strategy

4 WORLD HISTORIC REVIEW FOR ELECTRIC SAWS FOR ARBORIST BY GEOGRAPHIC REGION

4.1 World Historic Electric Saws for Arborist Market Size by Geographic Region (2021-2026)
4.1.1 Global Electric Saws for Arborist Annual Sales by Geographic Region (2021-2026)
4.1.2 Global Electric Saws for Arborist Annual Revenue by Geographic Region (2021-2026)

4.2 World Historic Electric Saws for Arborist Market Size by Country/Region (2021-2026)
4.2.1 Global Electric Saws for Arborist Annual Sales by Country/Region (2021-2026)
4.2.2 Global Electric Saws for Arborist Annual Revenue by Country/Region (2021-2026)
4.3 Americas Electric Saws for Arborist Sales Growth
4.4 APAC Electric Saws for Arborist Sales Growth
4.5 Europe Electric Saws for Arborist Sales Growth
4.6 Middle East & Africa Electric Saws for Arborist Sales Growth

5 AMERICAS

5.1 Americas Electric Saws for Arborist Sales by Country
5.1.1 Americas Electric Saws for Arborist Sales by Country (2021-2026)
5.1.2 Americas Electric Saws for Arborist Revenue by Country (2021-2026)
5.2 Americas Electric Saws for Arborist Sales by Type (2021-2026)
5.3 Americas Electric Saws for Arborist Sales by Application (2021-2026)
5.4 United States
5.5 Canada
5.6 Mexico
5.7 Brazil

6 APAC

6.1 APAC Electric Saws for Arborist Sales by Region
6.1.1 APAC Electric Saws for Arborist Sales by Region (2021-2026)
6.1.2 APAC Electric Saws for Arborist Revenue by Region (2021-2026)
6.2 APAC Electric Saws for Arborist Sales by Type (2021-2026)
6.3 APAC Electric Saws for Arborist Sales by Application (2021-2026)
6.4 China
6.5 Japan
6.6 South Korea
6.7 Southeast Asia
6.8 India
6.9 Australia
6.10 China Taiwan

7 EUROPE
