The global Electrosurgical Cutting Forcep market size is predicted to grow from US\$ 470 million in 2025 to US\$ 633 million in 2031; it is expected to grow at a CAGR of 5.1% from 2025 to 2031.

Electrosurgical Cutting Forcep is an instrument used for excision during surgery

Globally, electrosurgical cutting forcep industry is less concentrated due to its low technical or funding barriers. And some enterprises, like B. Braun, Erbe, Olympus, Karl Storz and Ethicon, etc. are well-known for the wonderful performance of their electrosurgical instrument segment. In the United States, B. Braun, Ethicon and Medtronic are the main market leaders. In Europe, B. Braun, Sutter, KLS Martin and Erbe are well known brands. Factors such as technological advancements in electrosurgery devices, growing number of medical, aesthetic and plastic surgeries, rapidly growing aging population, rising demand for minimally invasive surgeries, and increasing number of ambulatory surgery centers are expected to drive the market in the coming years. On the other hand, healthcare reforms in the U.S., frequent product recalls, and risks associated with electrosurgical procedures are some of the key factors limiting the growth of the market.
