An Explosive Ordnance Disposal (EOD) suit is a specialized protective outfit worn by bomb disposal technicians to safeguard against the blast effects of explosive devices. Designed to provide maximum protection, an EOD suit typically includes a helmet with a built-in communication system, a heavily armored jacket, trousers, and gloves. The suit incorporates multiple layers of ballistic materials to protect against shrapnel, blast pressure, and thermal effects while allowing for some mobility and dexterity. Advanced EOD suits may also feature integrated cooling systems to prevent heat stress during operations. These suits are crucial for ensuring the safety of personnel tasked with defusing and disposing of explosive threats in both military and civilian contexts.
