Omega-3 is found mainly in marine fish, as well as algae and certain plants. Today, fish is our major dietary source of both Omega-3 EPA and DHA – the dynamic duo of fatty acid nutrients. Omega-3 eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA) help to support overall health across every system in the body – from brain and eye development in infants, to

the maintenance of cardiovascular health in adults and seniors. Europe, led by France and Germany omega 3 ingredient market, is anticipated to witness an annual growth over 2017-2023.
